**Lehigh Valley for All** is a progressive, community-minded, grassroots organization whose goals are to provide a platform for voters to gain knowledge of the political system and to effectuate progressive policies within their communities through issue campaigns and encouraging our membership to seek office.

We are a group of volunteers that work hard to organize and help candidates that believe in our progressive values and want the Lehigh Valley to move forward. Our group will put “boots on the ground” for candidates that receive our endorsement.

Being endorsed by Lehigh Valley for All comes with a promise that we will **assist** in the candidate’s campaigns and **help** on election day at polling locations. Each of us must commit to writing postcards, posting signs, dropping off literature or making phone calls. **LV4All has a reputation** throughout the Valley for getting the best candidates elected and putting our time where our mouths are.
