

Chichersky, Walter

## Commended

Private Walter Chichersky, 1806 East Third Street, is congratulated following his receipt of a commendation for outstanding and especially meritorious service at Boulay, France. He is a camera man for the 166th Signal Photo Company and received the award for his photographic work with the 95th Infantry Division in its advance on and capture of Metz, France, and subsequent fighting in the Siegfried Line.

This is the first time in this sector and possibly in this theater that a commanding general of a division has cited an entire Photographic detachment.
