

Environmental drama

The Bethlehem Gadfly Environmental Advisory Council January 22, 2019

Tara Zrinski, Northampton County Councilwoman, is a ball o' fire.

Her resolution to ban single-use plastic bags and straws will be discussed at the county Open Space committee meeting Thursday, 1/24/19, at 4 pm. at the Northampton County Courthouse-Council meeting room.

And then voted on at the regular Northampton County Council business meeting that evening at 6:30 pm.

Gadfly has been attending our [Environmental Advisory Council](#) (EAC) meetings — meets first Thursday of the month, 7PM, Illick's Mill — for about a year now, and we have a plastic bag proposal coming down the pipeline.

So followers of environmental issues are urged to attend one or both of the Zrinski meetings.

Gadfly cannot attend, so reports from attendees — as comments to this post or longer separate comments — are most welcome. Pictures too. Zrinski is colorful, and fellow blogger Bernie O'Hare (see the link to his blog on our sidebar) has been having fun with her.
