

Sabo, John

Former Steelworker Promoted To Corporal

Andrew Kutz, member of the USA-CIO publicity committee, announced today the promotion of former member John Sabo, 217 Eighth Street, Easton, to the rank of corporal in the Air Forces.

A report received from the headquarters of Lt. Gen. Ira C. Baker, commanding chief of Mediterranean Air Forces, further said that Cpl. Sabo, son of Mr. and Mrs. Joseph Sabo, is on duty as a sheet metal worker with a Liberator bomber group in Italy.

A former employe of Bethlehem Steel Company in the SML department, Cpl. Sabo graduated from the Army Aircraft Mechanics School before joining his present group.

Mr. Lutz says, "Sometimes a clipping from his home town paper can mean as much as a medal to the morale of a fighting man overseas, whether a pilot, mechanic or clerk. Do not fail to clip any item in your local paper concerning boys in service and mail it to them."
