1st Terrace, Affordable Housing)*

In a model display of public participation and activism, a group of residents associated with the 1st Terrace situation that [Gadfly reported on earlier](#) attended City Council last night, announcing the formation of “Bethlehem Residents for Responsible Development,” describing the deteriorating situation in their neighborhood from the increasing pressure of student housing and firmly pushing the Mayor and City Council to take action NOW before it is too late.

You can find audio of the full individual statements from these residents at the bottom of this post, but here just below Gadfly has arranged clips in the form of an interview to capture the powerfully cumulative effect of their presentations.
