From a good source:

There are 2 air quality (“dust”) reports from Martin Tower, per Bob Novatnack.

- 1) Air quality report paid for by developers Wagner/Ronca et al, done by a private firm and to be finalized and released to Bob Novatnack this week. As soon as he receives it, he will make it public.
- 2) Air quality report from PA State Department of Environmental Protection, which they will release only through a Right-to-Know request. Not sure when that one would be finished and RTK-able.
