

Emerson, Ralph L.

CADETS IN TEXAS

The present class of aviation cadets at San Antonio includes 172 from Pennsylvania, two of them from this area: Ralph Lee Emerson, Warren Square, and John Francis Spirk, 1027 Seneca Street.

While here the cadets get rigorous training to prepare them for aerial instruction and duties as aircrew members in the Army Air Forces. They also study maps, charts, aircraft identification, small arms and other subjects.
