

Wolfe, Dorothy

### Local WAC At Work

Laboratory Technician is another of the many jobs by the WACs in the Medical Corps. Cpl. Dorothy Wolfe, a photographer in civilian life, has been in the Medics since May, 1943, when she arrived at Kelly Field, Texas. She is the daughter of Mr. and Mrs. J. Wolfe, Bethlehem. This is one of the few assignments at which the WACs do not wear the regulation uniform, but one designed for special use.
