THE CAULDRON

FOREWARD

We have just completed three years of undergraduate life—they have been years of aspirations, triumphs, joys, and companionships which will seldom be equaled again. They have been years in which we became aware of the great universe about us and found our place therein.

Throughout these years the classroom, the auditorium, and the athletic field have instilled in our hearts that love, service, loyalty, growth, honor, and coöperation characteristic of "Liberty."

But it is essential that we have some memorial wherein we can recall these years, and it is for this reason that the staff has published this book. If it will ever light a little spark within you, make you long for old friends, or smile at humorous incidents, we are gratefully rewarded; for the book has accomplished its purpose.

MARY PRICE GIBSON

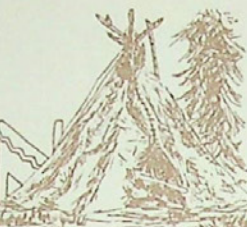

DEDICATION

It is quite fitting that the Class of 1932 dedicates this edition of the CAULDRON to one who has given invaluable service in the production of this and of previous year books. Few, we feel, could fill the exacting position of faculty advisor, with its arduous work, and meet with such attained success as Miss Mary Price Gibson has done. Yet, we find, that in keeping with her own noble character, she has always refused to accept that esteem and honor duly earned through these efforts.

Her distinctive qualities and pleasing personality also extend to the other half of her dual office—that of a faculty member. We hope that she will long remain one of Liberty High School's most esteemed instructors.

THE CAULDRON

ACKNOWLEDGMENTS

The staff expresses its appreciation to all who have assisted in the publication of this yearbook: To

Miss Gibson for her invaluable advice and careful supervision of this book;

Miss Keinard and her art students for the art work;

Miss Baum and her typists for the preparation of the "copy";

Mr. Koehler and his assistant, Melvin Hoch, for the taking and producing of the photographs;

And to the following individual students for their assistance as listed below:

Miss Baum's assistants:

Audrey Ohr

Margaret Ritter

Homer Frantz

ALVIN S. GRUVER. *Principal*

Message from Mr. Gruver to the Class of 1932

Permit me to congratulate each member of the Class of 1932 for this publication which is a brief record of your high school days.

May the pleasing memories and happy friendships, you find portrayed in this CAULDRON, never be dimmed by time.

As your past has been bright, it is my sincere hope that your future may be enviable.

A. Gruver

Message to Mr. Gruver from the Class of 1932*

Friend! We sought a word to describe our principal—leader, advisor, guide, yes, all of these, but what we wanted was this last and most beautiful word—Friend!

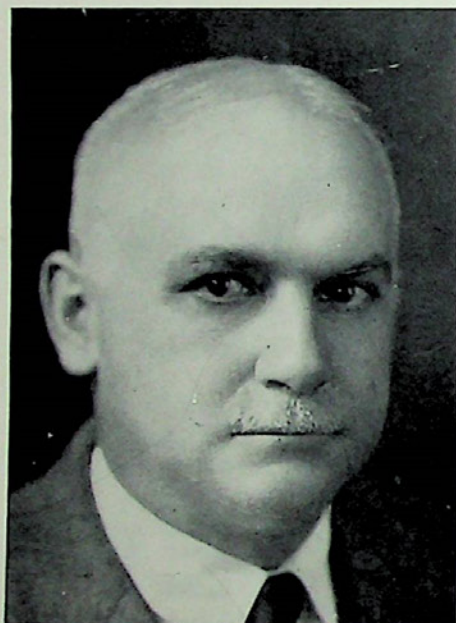

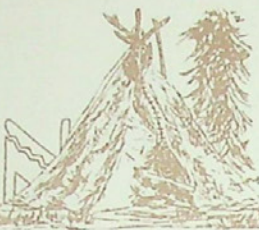

High school students need grown up friends, friends whose loyalty they may trust, friends to whom they may take their problems, friends with whom they may rejoice in hours of success, and friends whose leadership they may follow in perfect confidence. Our principal has been that to us—a true friend.

Friend! That word alone is enough. We do not wish to say more. His great influence has been the nobler for the silent way in which it was wielded. May our gratitude be the deeper for a similar silence.

We rejoice that, when he leaves Liberty High School this year, he goes with us—our fellow-graduate and friend!

* Accepted by resolution at class meeting—April 14, 1932.

THE CAULDRON

To the Class of 1932:

For unswerving loyalty to Liberty High School and for high ideals of conduct, the Class of 1932 stands pre-eminent. In scholastic standing you have a most enviable record.

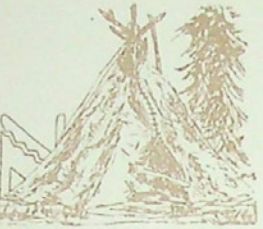

When you leave Liberty High School, you will carry with you the best wishes for continued success of all who have come to know you.

With every good wish for the future

I am,

THE CAULDRON

TO SCHOOL

The brown earth prayed, and e're it ceased, the prayer was granted.
A soft wind came and o'er it blew; a seed was planted.
The sod that once had barren lain, grew green and fair.
A plant had sprung up from that seed, and blossomed there.

So we, in barrenness of mind, prayed like the sod,
And you, school, were the laden wind, sent here by God.
You sowed the seed from which our thoughts and deeds shall grow.
We pray that they be worthy of you, you who sow.

Oh do not think that laughter light, and answer swift
May mean we do not feel its worth, or love your gift.
Deep in our hearts, in holy peace, where true thoughts rule,
There all is gratitude to you—GOD BLESS YOU, SCHOOL!

EMILY LENORE LUCH.

SENIOR CLASS HISTORY

In the fall of 1929 the sturdy little vessel *1932* started out on her maiden voyage in search of Knowledge. This voyage was destined to last for three years. This, the first year, the ship had no officers, but was manned very successfully by the sailors as a whole. During the year the crew of the *1932* joined with her sister ships, the *1931* and the *1930*, in trying their skill against other squadrons. They were very successful in all these combats and won the laurels again and again. A jolly lot were these sailors, and they performed their duties very earnestly, so that at the end of the year the ship had made quite some progress toward her goal.

In 1931 the ship started out on the second lap of her voyage. On this trip the sailors elected officers to direct the ship as they were getting in more dangerous waters and would have need of able management. The officers were as follows: president, Vincent Pazzetti; vice-president, George Koehler; secretary, Jeanne Tyson; treasurer, Thomas Garihan. The ship slowly advanced. The sailors, now more certain of gaining their objective, ordered their class pins and rings to celebrate that great event. They received these insignia just in time for Christmas. Now the ship advanced more proudly along its course. In the spring, the sailors of the *1932* gave all their attention to preparing a reception for their sister ship, the *1931*. The crews of both ships had a very pleasant time at this reception.

The last lap, and then—Success! The goal will have been reached; the purpose accomplished! The officers during this fateful year were: president, George Koehler; vice-president, Thomas Garihan; secretary, Mary Ferry; treasurer, Jack Peacock. Events occurred very rapidly now. The CAULDRON Staff was elected. Then there was great confusion among the sailors for they had to have their pictures taken. Foremost among the happenings was the Senior play, "The Charm School," which was very successfully presented. The ship ploughed steadily on, getting nearer and nearer her goal. The sailors, foreseeing success,

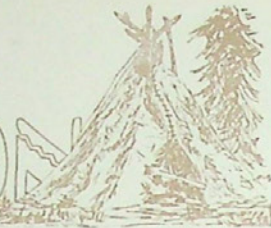

THE CAULDRON

ordered their commencement invitations and had their measurements taken for caps and gowns. The Commencement speakers were next selected. They were: valedictorian, Mary Ferry; salutatorian, Charlotte Meaker; class speaker, Alex Mesko; faculty representative, Emily Lenore Luch. While all this was taking place, the sailors were busily engaged in performing all the tasks that were assigned to them. Soon land was sighted—land, that place of their dreams, of their ambitions. To celebrate this wonderful event and to reward the sailors for their splendid cooperation and untiring efforts toward success, a holiday was proclaimed, which the sailors called Class Day. And what a holiday it was! The sailors,—yes, and even the officers, acted quite childishly. They all had lots of fun. Luckily, the ship remained intact, and the journey was continued. Now, after this violent outburst, the sailors had to calm down quickly and prepare themselves for a great storm they could see approaching. But since they had performed their tasks faithfully every day, most all of them successfully weathered this storm, which turned out to be final exams. Now the sailors joyfully entered the Port of Knowledge, from whence they must proceed in their respective paths to penetrate further into this mysterious land. Next the sailors of the *1932* were entertained very royally by their younger sister, the *1933*, at the Junior-Senior Prom. The Alumni, sailors who had already reached this land, welcomed the new-comers at a reception held for them. Now, returning to the ships, the sailors attended the Baccalaureate Services where they received the blessing of the chaplain. Finally, as a fit ending for the voyage of the *1932*, came Commencement and graduation exercises,—events to be remembered forever by those persevering victors.

The *1932* hopes that the succeeding classes will have as pleasant and as profitable a voyage as she has had.

THE CAULDRON

OUR SCHOOL, NULLI SECUNDUS

Creator of Wisdom, we humbly honor thee
As from thy halls of learning we must part,
Ne'er to return. Blessed shall our memories be
When we review with low and saddened heart
Platonic friendships, loves, and social joys
We were afforded 'midst thy gracious fold.
Now we go forth to meet with life's decoys,
To take our place, our burden, and to mould
Thy teachings from the counsels of the dead
Into our life and true reality.
We then, as now, will proudly lift our head
With heart-felt reverence and sincerity.
And, thus, our loyal hearts raise up to bless
Thy name in pride and faith and thankfulness.

DOROTHY ACHEY

"Dot"

317 West North Street

Powerful in mind and body, she missed no gift from Mother Nature! No wonder sport fans call for Dot! A friend to love, a foe to honor, Dorothy fails in no possible way to keep Old Liberty's records clean and high. Her friends adore her sense of humor, her undaunted courage and her serenity. Long live Dot, our Queen of Sports!

Commercial Course.

Hockey, 4; Basketball, 2, 3, 4; German Club, 4.

ELEANOR AGNES ACKERMAN "Leonore," "Nora,"
"Curly"

28 East Lehigh Avenue

Curls galore adorn her head and eyes of gray eternal friendship pledge. Her slender fingers are nimble; useful for everything—to type, to draw, to paint, or to play the violin. Her heart delights in work or play; with careless ease she holds her sway in the realms of both. Her work will be typing, her password "speed"—with open arms the business world will greet her.

Commercial Course.

Orchestra, 3, 4.

IRENE MARION ALBERT

"Rene"

412 Hayes Street

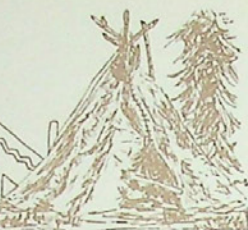

Who's the girl walking down the hall wearing such a worried, puzzled look? That's Irene. She's worrying about some paper that she doesn't have or that should have been signed. She's very clever and studies so hard. See the serious, dreamy, far-away look she has in the picture. Can't you just tell she's only with us in body, not in spirit? Irene is going in training.

THE CAULDRON

WALTER AMES

"Walt," "Dodo"

1832 Sycamore Street

"Small is the subject, but not so the praise."

Dodo is a regular fellow! He hails from Pittsburgh. (And are we glad to have him at Bethlehem?) He can always be seen with a cheerful smile, striding through the halls with his "swaggering canter." Or, more likely, he can be seen standing around the lockers talking to a few of his numerous friends. Who does not know Dodo with his ready wit and sparkling humor? If you don't, it's your loss.

Dramatics Club, 4.

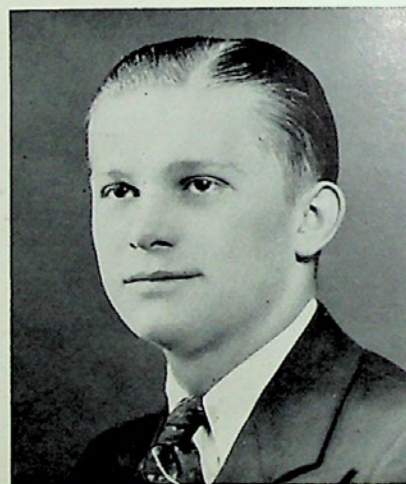

JOHN GEORGE ANDREYO, JR.

"Jack"

761 Kossuth Street

John is the boy so well known in the halls of our school. Although he professes to be a woman hater, he is often seen meeting the fair sex in front of the store on the corner. Never mind, Johnnie. Keep your seriousness of purpose, and success will come to you.

General Course.

JOSEPH ANGELINE

"Sis"

828 Vine Street

Joe is known around school because of his shy smile, and ready wit. One of our quiet and bashful boys in school, but outside of school, watch his dust! He admires the supposedly weaker sex, but is seldom seen playing, "Mr. Escort." If reliance and willingness are of use, success is just around the corner.

Scientific Course.

THE CAULDRON

EDGAR D. ASHTON

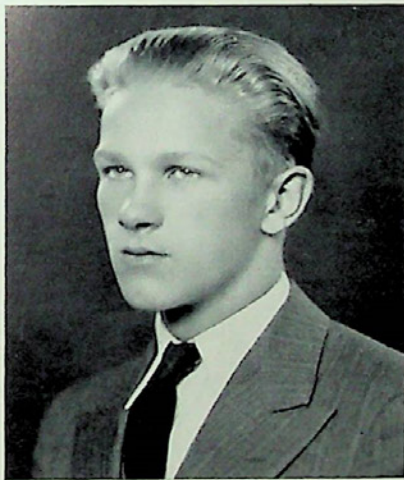

"Ted," "Eddy"

733 First Avenue

Ted should be a politician; for with his ability he would be sure to be a success. Happy-go-lucky and good-natured, Ted is always on the job. He is noted for blushing, which seems to be one of his accomplishments, for he is very adept in this mastered art. He is a reliable, worthy president of the Boys' Glee Club and without him there'd be a great loss.

Commercial Course.

Glee Club, 2, 3, 4; President, 4.

DONALD G. BACHMAN

"Bachman"

R. F. D. No. 1, Bethlehem

Don is a quiet sort of fellow and is quite awkward in the presence of the weaker sex, but he is not backward about holding his wrestling opponents against the mat. He has proven his ability on Liberty's Wrestling Team. He has not yet decided what course he will pursue after graduating, but we wish him success in holding the "shoulders of business" against the "mat of life."

MADGE MARGARET BACSO

"Magda," "Doll"

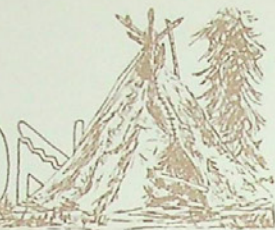

R. F. D. No. 1, Bethlehem

May we introduce the walking edition of *Ask Me Another?* Madge spends about fifty per cent of her time in asking questions, but it seems to have its effect, because Madge certainly manages to keep right on top scholastically. Her earnestness in her work guarantees success.

ELIZABETH BEHR

"Libby"

940 Broadway

Libby is a funny creature;
Really not an unknown feature
Of our number.
She has quite a line of chatter
About things of little matter
Beyond number.

(And what's more we understand that Libby intends to be a nurse.)

Commercial Course.

LOUISE BELZNER

627 Second Avenue

"Wease"

About two evenings a week Wease doesn't go out: that's the night before her history notebook is due. This doesn't mean that Louise doesn't do her work. It means that she is capable of doing it and enjoying herself, also. Wease enjoys football and basketball games, and the reason why is no secret, is it, Wease? This young lady is well liked by everybody, for anyone would like a pretty girl with a friendly smile and a "way with her."

Commercial Course.

DOLORES BENNICH

808 Center Street

"Not the great Bennich?" Yes, of course; who else could it be? Just look at that walk and that little nose a way up in the air. To most people Dolores seems rather sophisticated, but she really isn't. She is one of the most congenial girls in our class and rather witty, too.

When Benny leaves the massive halls of her Alma Mater she intends to go in training—unless someone changes her mind for her.

THE CAULDRON

EDWARD BENYO

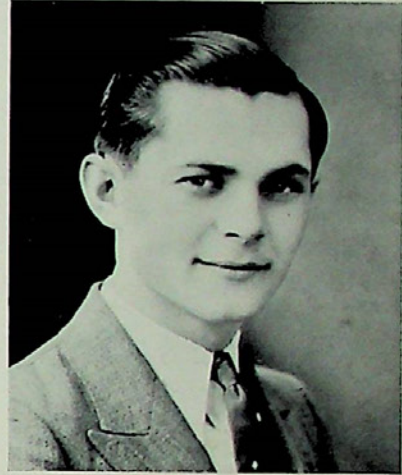

"Eddie"

215 West Goepf Street

Our Eddie is a student who seems at all times interested in his studies. In the classroom the teacher must clear up every detail to satisfy him, a trait which might bring tears to the eyes of his teachers and even sometimes embarrass them further. He also takes active part in the social side of school life. His pleasant, likeable manner has won him a host of friends who will remember him long after the classrooms of Liberty are left behind.

LUCILLE BENZ

"Honey"

R. F. D. No. 3, Bethlehem

Those eyes spell danger, and you know the one about "a word to the wise." Is this girl talented? We should hope! On the hockey field, when something about five feet two with brown hair flying about whizzes past you, it's probably Honey on her way to make a goal for our side. She also more than holds her own on the basketball team.

MARY BERGSTRESSER

11 East Goepf Street

Of course you all know Mary Bergstresser. She is everyone's friend; and where could anyone find a better one? Mary is always wrapped up in her lessons, but she will turn away from them anytime long enough to give you a smile and a cheerful word. She is very fond of swimming and life-saving. If Mary is as successful in later life as she has been in her four years of Latin, she has nothing to worry about.

HELEN BERUKSTIS

407 West Eighth Street

Anyone who has seen Helen in action on the hockey field knows what a threat she is to the hopes of the other team. On the other hand, she is a very jolly girl with a sunny disposition. She always greets you with a smile. Helen is a good sport. Whenever there is any fun, you can be sure Helen has a part in it. Helen is going to enter the business world, where she will be successful.

NORMAN BITZBERGER

"Bitzy"

1761 West Broad Street

Bitzy is one of our biggest men this year. You don't have to strain your eyes to see him in the halls, but where does he keep himself after school? Well, you can either find him at home battling with geometry, or at one of the local A. & P. stores juggling groceries about and finally landing them successfully on the counter before his customer. His big heart assures us that he will be crowned with success.

It would be a waste of time, energy, and room to explain who Dot is. We have yet to see the student who doesn't know her. In school Dot's chief interests seem to be French verbs and history notebooks, but nevertheless she always manages to find time for outside activities. The only way Dot will ever lose all her friends will be to have everybody wiped off the face of the earth.

“Actions speak louder than words.”

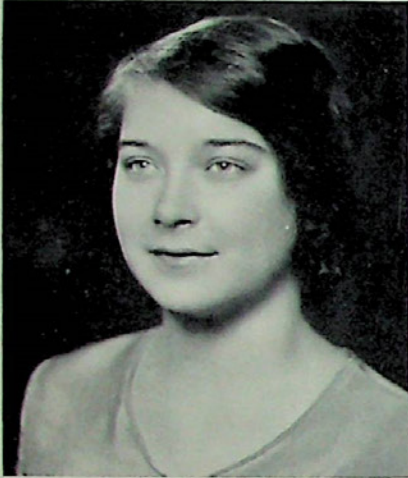

Folks, here’s our active little flash.
 How she through everything can dash!
 Especially in sports she shines,
 As everyone in view divines
 How she swings that baseball bat—
 It nearly raises off your hat.
 But Ruth is good in subjects, too,
 She’s ever ready to dare and do.
 Then here’s to Ruth, a vast success,
 May nothing mar your happiness!

Whenever you see someone coming down the hall advertising Pepsodent, you know you are facing Mildred. It is not only Mildred's smile that draws people to her, but it is her magnetic personality. She is always full of fun and "pep," although we can't quite decide whether it is Kellogg or not. Mildred has been a star in basketball for three years. Mildred has one apparent weakness—that is her inclination towards tall men.

EVELYN BESSIE WOLFE

36 West Third Street

Evelyn is always giggling, and very seldom sad. Her kind disposition has won her a large number of friends. She has quite a number of sheiks, but some one from the Brown and White seems to be the leading one. One wonders if Evelyn will ever be an office girl. She's barrels of fun and we wish her barrels of success.

To those who do not know her very well, Marion seems to be a very quiet girl. But among her most intimate friends she is as jolly and full of fun as any one. Betty Yorks?—Oh, yes, she's that cute little girl who never has time to moan the blues. Why of course, she writes all those interesting nature articles for the *Libertas*. But don't be mislead, Betty is only human after all and often remains after 3:05 for forgetting a signed Latin paper. Her readiness to help with a tough Latin or German translation and her winning personality have established her popularity beyond a doubt.

LAST WILL AND TESTAMENT

We, the class of nineteen hundred thirty-two, being of sound mind and rosy cheeks and clear, sparkling eyes, do hereby make public, this our last will and testament, declaring all such former documents null and void and every other nasty name we can think of. We surrender to our successors, the Juniors, the use of the only rooms with southern exposure on the third floor and a decent view of the Foering Motor Car Company's backyard. (You lucky beggars, you!) You Juniors, also, from this time on, use the front entrance, formerly forbidden you. (It will seem strange at first, but you will get used to it in a few months.) And now, because you have been such good kids all these years, we have something nice for you.

John Sellers leaves all his old sailor clothes and middy blouses to Ross Brown.
Evelyn "Bessie" Wolfe has agreed that she will publish for future Seniors' reference, a book entitled "Catching up on Homework."

"Tom" Garihan bestows upon John Lambert his collegiate swagger.
Helen Standing, that long, lanky swimming versatile, offers to anyone who will take it, her worn-out bathing cap.

David Griffith Samuels, Jr., recommends Beech-nut Chewing Gum to Alfred Bornstein.
Grace Heverly and Marjorie Harper bequeath their unexcelled art of getting into trouble and their places of honor with members of the faculty to Catherine Kelly and Mary Appel.

Louis Winkler entrusts to George Elstrom the privilege of taking the fair sex home after school.
Francis Pinter leaves Todd Rush the guardianship of Christine Wallace, expressing the hope that she will be too young to notice the substitution.

Estelle Thomas bestows her hypnotic powers over "Art" Green to Jean Reichenbach.
Jack Peacock leaves his ability to write class receipts to Ethel Hartzell.
"Walt" Ames leaves his school-girl complexion to "Iggy" Crull.

Joe Borda gives to "Peg" Dwyer his algebra book, together with the questions and answers.
Marie Prosser, Virginia Kvacky, and Dot Achey leave to Josephine Yazsewski, Doris Lawrence, and Josephine Kresge their combined athletic efforts.

Curtis Merkle leaves. That puts a number of Junior girls into circulation.
"Betty" Mohr and Jeannette Dion leave their adjoining seats in the cafeteria to Genevieve Hess and Evelyn Wendell.

"Dot" McNamara prescribes Pepsodent tooth paste to Helen McClennigan.
Merritt Deyscher and Ronald Payrow hand over their esteemed solo positions to Frederick Johnson and "Jimmie" Mack.

Norman Birtzberger bequeaths his smallness to "Bob" Waldron.
Betty Yorks bestows upon Clement Sheridan her ability to do German in two periods.
June Santee and Edith Rea give the addresses of their homes way out in Bath to any of the Junior boys who want to write to them during the summer months.

The Virgil class imparts the knowledge that Virgil isn't as hard as it sounds, although we hate to admit it. There's only fifty lines of translation, a twenty-word vocabulary, three lines of scansion and no historical references. We almost forgot to mention that you have to make a map of Aeneas' voyage.

Mary Ferry leaves her place on the high honor roll and the first place in Virgil class to Virginia Mortimer.

George Fiegel presents his seat in German class with all its outstanding, accompanying features to "Billie" Klingner.

Harold Newhard bequeaths his pianistic ability to his sister Gretchen. In this way, he can borrow it again if he ever needs it.
George Stettler leaves to Paul Bauer the curl of his hair.

"Bill" Rodda, the sheik of the class, bequeaths to Robert Foulsham his sleek hair-comb.
"Ernie" Thorn and Emily Luch hand down their platonic friendship to Eliza Jane Kemmerer and George Smith.

"Bill" Hutchinson leaves his acting genius to Robert Watkins.
"Joe" Maize leaves his headache to Philip MacLeod and hopes he will come and get it soon.
Marion Steely releases her Glee Club seat to the person who can sing high C without making everybody walk out of the auditorium.

George Koehler and Miriam Walker bequeath their popularity with the opposite sexes to Leonard Yeager and Vincenzina De Bellis.

Frank Snyder gives his gift of mugging and making a lot of noise to Merritt Frankenfield.
Terrence Garrity passes on to Thomas Thomas his bashfulness, ready blushes, and shy, sweet smile.
Margaret Unger bestows upon Willette Snyder her outstanding qualities of the feministic art of love-making.

Fred Dornblatt leaves the power of forgetting his chemistry books to Robert Schermer.
Billy Rau sadly bequeaths his height to "Steve" Polgar.
Leonard Shick leaves behind Helen Clymer for some future senior.

We would also like to instruct the future inhabitants of 307 that every Wednesday and Friday morning your home room is shifted to the balcony of the auditorium.

"Pat" Pazzetti gives a certain junior thirty more days to pay back that fifty cents he borrowed.
Well—we're good and tired of all this legal red-tape and we feel that we've left you Juniors all you deserve, so we'll dash off and get this signed by a notary public and have one of those cute seals put on.

We hereby sign and seal this last will and testament of the class of nineteen hundred thirty-two.

THE CAULDRON

PROPHECY OF THE CLASS OF 1932

The year 1951—to some people, merely a numeral to use in writing dates; to others, a milestone just beyond the half-way mark of the twentieth century.

The second, great World War has been over for ten years, depression and hard times have once more fallen upon the peoples of the now forever peaceful nations of the world, and the winter of 1950 has just proven worse than that of 1932. We have just revived from that last world-racking, soul-searing conflict that ushered in the dawn of an era of international unity and cooperation for the benefit of mankind.

At last peace is enforced as an international law by an armed international police force, which exists to prove that right makes might by using might to make right.

No longer is a foreigner locked upon as a being from another world. International understanding is everywhere prevalent. Human beings finally admit that people of other nations are also human beings.

Laborers now receive a wage that enables them not only to live comfortably but also to save and invest money in addition to educating their children. Thus, although the employer classes receive fewer returns, compensation is more just and the returns from production are more evenly divided.

In short our old system of living has been reformed for the general benefit of society as a whole, and at last people have learned to listen to reason and to give the other person a real chance. Everyone is treated justly, corruption is unknown, excessive materialism is considered a vice, and the world is all the happier for it.

As an example of the good obtained by these changed conditions let us take our own graduating class of 1932 and see what our classmates are doing after almost twenty years on their own.

Louis Winkler is now a celebrated child specialist, attended in his work by Barbara Schweitzer, Vera Rockwell, and Marie Prosser, his private nurses. Occasionally he consults that competent dietician, Mary Bergstresser, about cases of mal-nutrition. His chief rival in this field is Elizabeth Behr, who owns a small private hospital and employs a force of nurses under charge of Dot McNamara and Dama Ruth.

James Croushore, Max Koffel, and Joe Borda, all general practitioners in Bethlehem, often send their patients to Francis Pinter, a famous surgeon whose work employs Ellen Sauers, Grace Huff, Emma Gerlach, and Mildred Wisolosky as attending nurses. At his hospital Mary Kehoe, Ruth Pinkle, Madge Basco, and Lena Heckert are all striving for the position of Superintendent of Nurses, recently vacated by Louise Lawrence. The one who gets the job will direct a force of nurses including Ruth Henry, Hilda Goth, Gladys Freeman, and Grace Clewell, whose work is aided by Edith Dresser and Virginia Lindaberry, dieticians.

In a little town in one of the western states Elizabeth Zonay is working as assistant to Teresa Resetco, a practising chiropodist, while in a large city sixty miles away Ailene Long is working as a nurse in a public hospital and Marguerite Steiner is employed as a dental nurse by the City's leading tooth specialist.

Claire and Jeanne Tyson are now studying Medicine in Europe with Blanche Warner and Mary Zelko as their travelling companions.

Elmer Olexa and Edward Lynch assisted by Marguerite Rupert are now heads of an accounting firm which employs Norbert Trout, Leah Weiss, Margaret Unger, and Alice Steckel as members of its office force.

Lillian Spilberg and Elizabeth Luckhart both own florist's shops and hot houses. The business ends of the two rivaling enterprises, which are located in Bethlehem, are attended to by Dorothy Jacoby and Horace Hawkey.

Nearby these two establishments appears a magnificently decorated sign bearing the inscription, "Paul Peters, Undertaker." Mr. Peters has placed his business correspondence and other weighty matters in the hands of Ruth Gruver and Margaret Florey. Foster Frable is the one who does most of the real undertaking, dividing his time between the operating room and the office.

In the private office of a big bank in New York Frank Peters, the financier, is seated. He is in conference with Harry Crawford and Pat Pazzetti, stockholders in his bank. In the capacity of advising lawyers Curtis Merkle, Elias Spengler, and Francis Knauss are also present, while Estaline Hamm, Ruth Coffin and Sophie Cherkis are sitting there unobtrusively taking notes. Outside in the main office Sydney Bowker, Edgar Ashton, Virginia Raidline, and Miriam Parsels are pretending to work while they speculate upon the doings of the people in the inner office.

The purpose of this conference is to discuss the growing competition of a new banking firm headed by Alex Mesko and Robert Flickinger who preside over a staff including Robert Schaffer, cashier, and Robert Conover, Jack Dennis, and Howard Kincaid, tellers. Their advising lawyer is Michael Sockernski and their office force includes Loretta Clater, Florence Stahler, Dorothy Ruhe, and Evelyn Richter.

The chief depositors of the latter bank are a firm of shoe manufacturers directed by Catherine Rockel and Homer Frantz. Grace Shoenerberger and Margaret Ritter are two of the department heads, while the chief of their staff of traveling salesmen is Edward Deibert.

Back in Bethlehem Claude Cook has a moderate-sized business in the center of town.

Next to this establishment Veronica Klinkhoff has a small shop devoted to beauty culture.

Dorothy Bowlby and Helen Kessack are also working along this line. Dorothy has a small shop in New York and Helen is studying the care and culture of the skin in the same city.

Down in North Carolina Charles Cummings is running a small department store with the assistance of Sara Mendsen, who works as his secretary.

Sara rooms with Audrey Ohr and Lillian Nagle, both of whom are working in the office of a big cigarette factory which is under the joint management of Thomas Strohl and Kenneth Hensinger.

In the same city Rose Weber heads a large, fashionable clothing store and employs Louise Wilkinson and Malcolm Jones as window decorators. Most of their more select stock comes from the New

PROPHECY OF THE CLASS OF 1932—Continued

York shop of Alma Fidler who handles only the latest creations of that well-known dress designer, June Santee, whose correspondence and social obligations are attended to by Mary Degnan and Rita Darold.

Next to Alma Fidler's exclusive shop a building is being erected by the Webster Gehman Contracting Company. Hyman Miller is the engineer in charge, and Michael Chorkis is the head foreman. Between them, in spite of the new scientific methods of building construction invented by Albert Prokop and Thomas Kichline, they make enough noise to have the Fidler Fashion Shop lose three of its best patrons, Dolores Bennich, Lillian Letto, and Catherine Kaufman.

Norman Bitzberger and Joe Goldberg are rival candidates for election to the Senate in Washington. Their campaign work employs Marguerite Montz, Lois Levering, Mary Jane Howlett, and Grace Narzisi in secretarial work. Mr. Bitzberger is backed by Robert Shafer, and Ex-Senator Goldberg is being backed by David Samuels.

This hotly-contested campaign is receiving nation-wide attention and is being covered by James Kish, a representative of the *New York American*; Edna Goldenberg, of the *New York Herald-Tribune*; and Helen Standing, of the *New York Times*.

While this is happening, a fellow journalist, George Gambler, is covering an engineering project in the wilds of Mongolia where George Koehler and William Woodring are working in collaboration with Theodore Hartman and William Hutchinson. At times these four come in contact with their old classmates, Ernest Thorn, Anna Marie Nissler, and Grace Heverly, all of whom are doing missionary work.

This engineering project in Mongolia that George Gambler is reporting for his newspaper syndicate is one of the many progressive investments of a large promoting concern headed by George Flegel and Steve Donches, whose work is materially aided by Virginia Reichley, and Dorothy Achey, private secretaries.

Saul Roth and John Edwards now control and direct a huge telephone company, in whose employ are Vernon Kildare, Harold Newhard, and Trythal Hemmerley, research scientists; and Charlotte Young, telephone operator.

At a big, Eastern University Charlotte Meaker holds a job as an instructor in Geology. Among her fellow faculty members are Harold Landis, a French instructor; Verna Swetzer, a German instructor; John Keshko, a Chemical engineer; and Estelle Thomas, an instructor in Chemistry. In the university's research laboratory one can generally find Roger Grube, Clayton Sandt, and William Thompson at work, and one can also usually discover William Reese employed in historical research.

Many of the students that attend this university come from the high school where Kathryn Redline is a teacher of music; Elizabeth Mohr, a teacher of Latin; Ethel Wright, a teacher of English; Miriam Hinkle, a teacher of German; Catharine McCandless, a teacher of English; Mary Ferry, a teacher of French; Elizabeth Lynn, a teacher of English; Lillie Steiner, a teacher of English, and where Helen Giesau, and Normal Stahl are the instructors of physical education. The entire coaching staff of this high school consists of Jakey White and James Edraney, football; Owen McCall, track; Willard Hinckley, basketball and baseball; and Donald Bachman, wrestling. The school library is under the charge of Joy Reader and Elizabeth Hippenstiel.

Just as many of the students of the aforementioned university come from this high school, so many of the students of this high school come from a great municipal grammar school at which we find Miriam Weber presiding as principal over a teaching staff including Edna Murza, first grade; Jeanette Prosser, second grade; Dorothy Ohnmacht, third grade; Mabel Michael, fourth grade; Alice Derr, fifth grade; Isabelle Godfrey, sixth grade; Mary Cocker, seventh grade; Dorothy Buechler, eighth grade; and Ruth Dimmick, ninth grade.

A few of the musically-inclined pupils study piano under the direction of Evadne Elchenburg.

This school and others like it are occasionally visited by Peggy Farquhar and Ethel Hochella in their capacity of social workers investigating the conditions of child education.

Robert Piatt and John Sellers are executives of a large air-transport company which gives employment to Frank Horscroft, Mike Haragonich, Edward Benyo, and William Rau as pilots. Herman Vought works as a mechanic and William Bertlot and Arthur Green hold positions as technical advisers and designers.

Now and then some of these people meet up with Victor Gregor, who is still flying a plane in the international police force in the rank of Flight Commander.

Paul Krueger and William Ueberroth are in the same service. Bill is a pilot, while Paul serves on one of the great international airships.

While these fellows are going about their regular routine—patrol work; Thomas Wren, Harold Hottle, and Terrence Garrity, all first officers on great ocean liners, are striving to be the first of the three to receive command of a ship.

Two years ago Harold Hottle was on board the veteran tub, *Manhattan*, when she went down two days out from New York. All the passengers, including Walt Ames, Sue Wright, Emille Williams, and Claire Remaley, along with the entire crew were saved by a U. S. Coast Guard Cutter under command of Captain Leonard Shick.

Speaking of rescues, just three months ago thirteen people were saved from a burning building by Bethlehem's famous fire chief, Franklin George, who has also recently introduced some new fire-fighting devices invented by Henry Ritter, Raymond Grant, and Henry Greiner.

Out in Rocky Mountain National Park, a great national forest reserve, Ronald Payrow, John Mills, and Clarence Deutsch are holding jobs as forest rangers. Associated with them in their work is La Rue Diehl, a well-known naturalist.

Last summer Sarah Kressley and Marjorie Harper spent the month of August in the preserve. Sarah is now a coming young oil-painter, and Marjorie is an accomplished novelist.

THE CAULDRON

PROPHECY OF THE CLASS OF 1932—Continued

Speaking of novelists, I just received the following letter from Joe Maize, the originator of most of America's lighter and weaker moments:

Dear Prophet,

I suppose you never expected to hear from me, did you? I meant to write to you sooner, but I am pretty busy. How are you and the wife? But to get back to me: as you know, it has always been my ambition to be a writer, a *good* writer, and now I guess I am about as good as they come. I get enough money to send Junior and Fanny to prep school. Come down and see me in Young's Drug Store. I write pretty good and they have given me the job of exhibiting pens in their window.

Yours truly,

JOE MAIZE.

The mention of American literature brings to mind the careers of Emily Luch, Betty Yorks, and Georgine Werst, who, with Antoinette Ford and Katherine Finkbeiner, go a great way toward supplying the country with its reading matter, a good deal of which is handled by Estella Leskin in her work as a librarian in the New York Public Library.

A few blocks away from this great library is the furnishing house of Manley Richards and Sons, where Roy Smith works as a sort of general manager directing a staff including Jeanette Dion and Grace Weidner, interior decorators.

The advertising of this firm and many others is in the hands of Evelyn Kaplan, a prominent, independent advertiser.

Many of the art works handled by this furnishing house are products of the talents of Emma Meinecke, Gladys George, and Hylia Lossman, three popular and successful young artists.

Occasionally these sophisticated New Yorkers are entertained by the dramatic skill of Marion Campbell and Lucille Benz, both of whom are familiar figures to the average Gothamite playgoer. Moreover, if chance leads these unsuspecting playgoers to wander from their habitual haunts and to end up bewildered and unfeignedly ill at ease in a box at the opera house, they will witness the performance of Virginia Kvacky, premier danseuse, and Marian Steely, first soprano, while Madlyn Ritter conducts the orchestra which includes Merritt Deysher, a saxophone player.

Looking over the audience, these same stray New Yorkers might recognize Donald Lawrence, Harry Crauthamel, Irene Albert, Helen Berukstis, Florence Stein, Evelyn Wolfe, and Ruth Leith, regular patrons of the opera as well as admirers of that famous pianist and philosopher, Myra Hilpert.

Due to the common use of television the performances of these artists is available to a widely varied radio audience, which consists of Silas Brown, a businessman; Helen Frankenberg, a house wife; Carl Sencenbach, a large scale, western farmer; Miriam Walker, a jewelry detective; Lester Rogers, a business man; Edith Rea, a writer; John Gross, a business man; Ruth Parsels, a house wife; Jack Peacock, a chemical engineer; Eleanor Ackerman, a foreign buyer for a jewelry firm; Violet Remaley, a private secretary; Vernon Reed, a doctor; Dorothy Schleicher, a secretary; Marian Shaeffer, a house wife; and Tom Garlhan, a lawyer.

Stephen Haraste now owns and controls a large chain of corner drug stores in which we may find Catherine Starnier, George Stettler, Robert Schaeffer, and Isabelle Conrad.

Frederich Dornblatt, Harvey Serfass, and William Rodda are a few of the doctors who patronize this firm exclusively.

Most of these people are subscribers to the *New York Daily Swirl*, a great metropolitan newspaper, edited by Paul Boehler. On the staff of this great journal are Frank Snyder, Franklin Wagner, Lester Miller, Arthur Mauriz, and George Privilege.

Many of the skyscrapers that these reporters are familiar with were designed by Charles Weeks, and were built by Lester Snyder and Ray Gold.

Within one of these massive buildings are located the offices of Myer Katz, Marion Wolfe, Eleanor Kirkpatrick, Woodrow King, and Louise Belzner.

These tenants pay their rent to Joseph Kovacs and William Ritter, the owners of the building. These men employ Dorothea Merwarth, Rhodda Kemmerer, and Esther Krier to help attend to their affairs.

Among the other tenants of these two wealthy landlords are John George, a color painter; Chester Jones, a milkman; Walter Kleppinger, an American Store Manager; William Schilling, a woodworker; Robert Smith, a professor of Electrical Engineering; Paul Starnier, a printer; Benjamin Frankenberg, the foreman of a pattern shop; and Galen Faulstick, an aeronautical engineer.

So we see that our class has gone out into almost every imaginable walk of life and so we see that, taken all in all, our lot is far happier than was that of our forebears. Our endowments have placed us in these positions; it remains for us to finish the task.

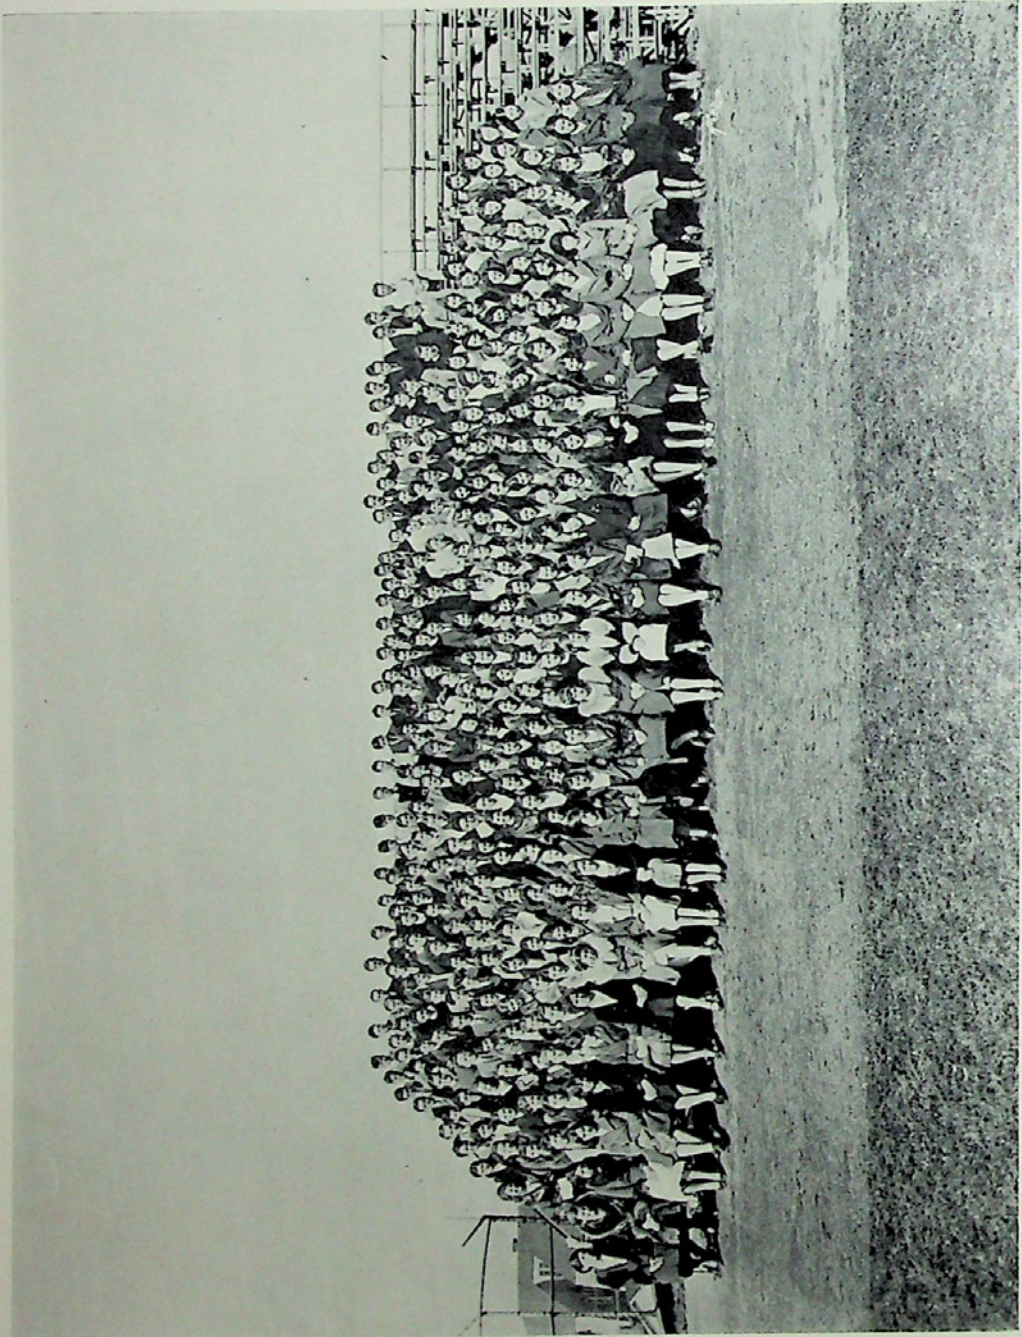

The world as a whole is beginning to feel that it is one huge community and not an arena filled with quarrelsome nations about to pounce on one another as soon as some excuse is given.

Assured of this fact, scientists are working on interplanetary study and possible methods of interplanetary communication. Who knows but that the history of man will soon be not a history of the world but a history of the universe, with planets taking the parts formerly played by nations? In the future our descendants may see wars not between nations but between planets. The whole evolution from anarchy and chaos to close-knit, peaceful civilization may once more be gone through. Transportation and communication between worlds may give rise to interplanetary commerce. Earth dwellers may consume the products of Mars or some other more remote planet, and Mars dwellers may consume the products of our own planet. For who can say there is no life on planets which are as yet beyond the range of all our scientific instruments? Who knows but that history will repeat itself and we will have *universal* unity and peace as we now have *world* unity and peace?

WM. HUTCHINSON.

THE CAULDRON

HISTORY OF THE JUNIOR CLASS

Well, here we are at last, Juniors! It is hard to realize that we are only one year away from graduation, and will be leaving these dear Old Halls of Learning.

Our class organized in early fall. We selected the following officers: John Lambert, president; Robert Taylor, vice-president; Ethel Hartzell, secretary; and Elizabeth Bishop, treasurer.

At a later meeting we decided upon \$1.50 as the dues for this year. The class jewelry arrived just before Christmas and became the pride of every jolly Junior.

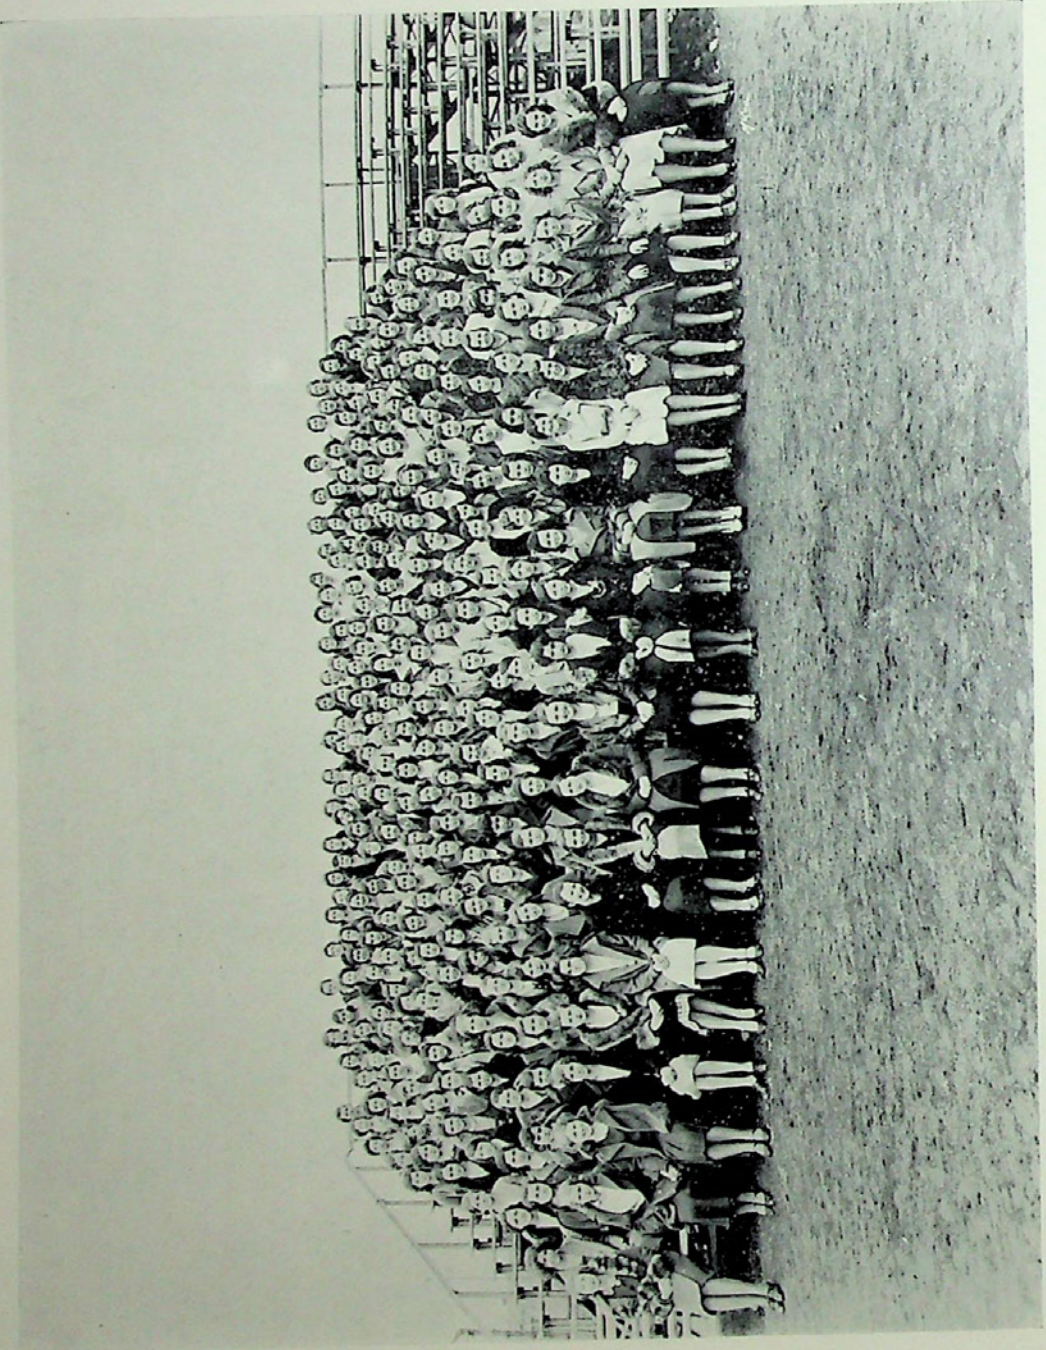

The class of '33 also takes pride in its fine representation in the extra-curricular activities for the year.

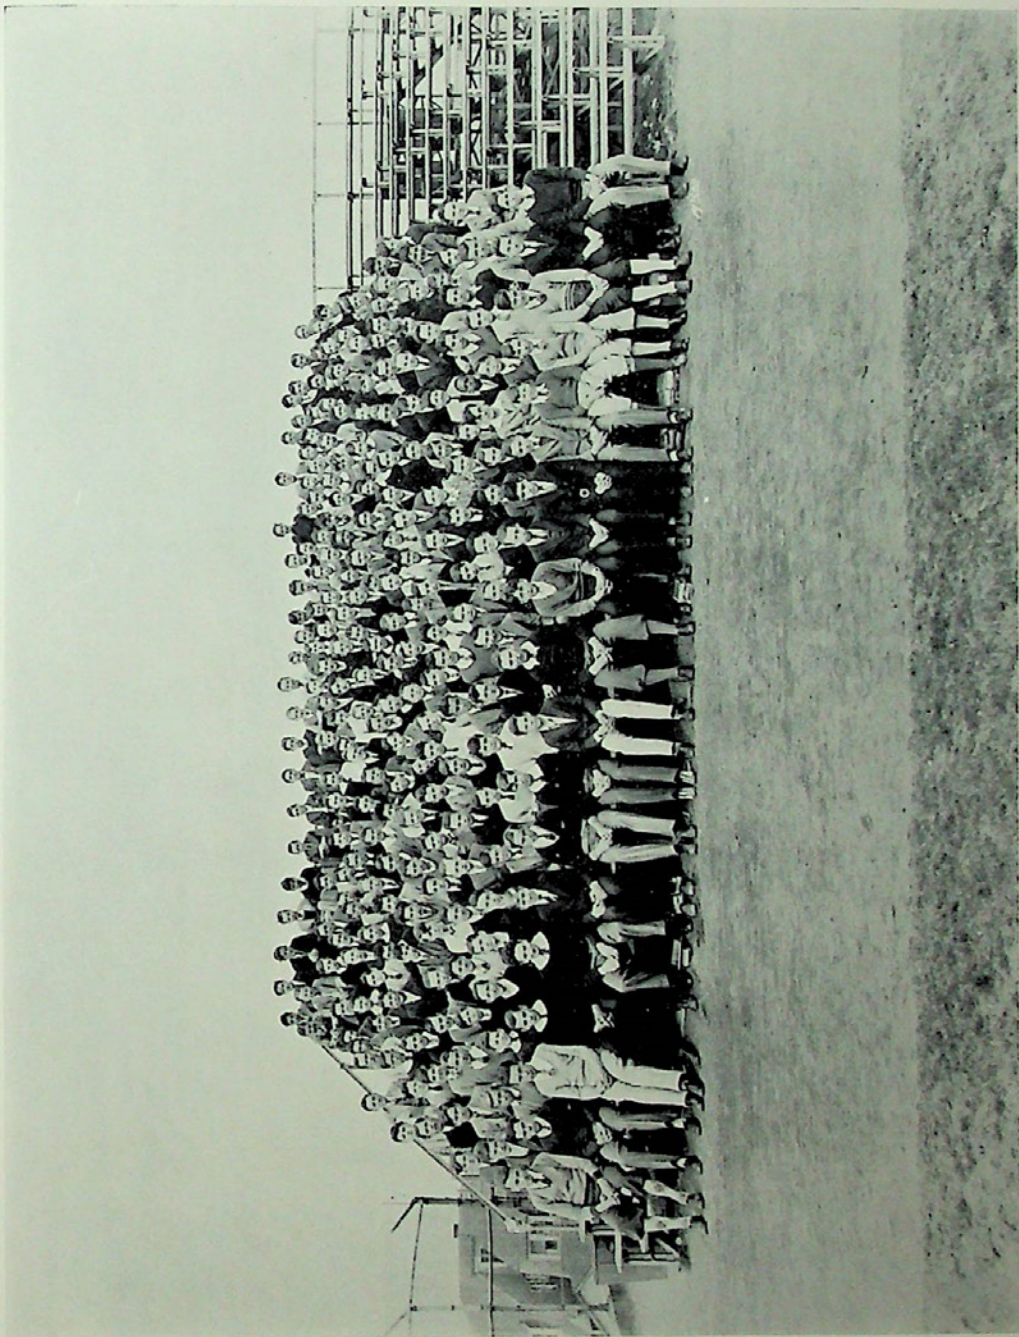

Of course, the biggest thing of the year was the Junior-Senior Reception, which was a great success. Money, time, and energy were lavished on the noble Seniors, but we all came to the conclusion that it certainly was worth it.

THE CAULDRON STAFF

The "try-outs" for the year's staff were held under the supervision of Miss Gibson, who, together with Miss Crow, selected the names of two students from the list of applicants for each position on the staff. The Senior Class cast the final vote and chose the members at one of its meetings.

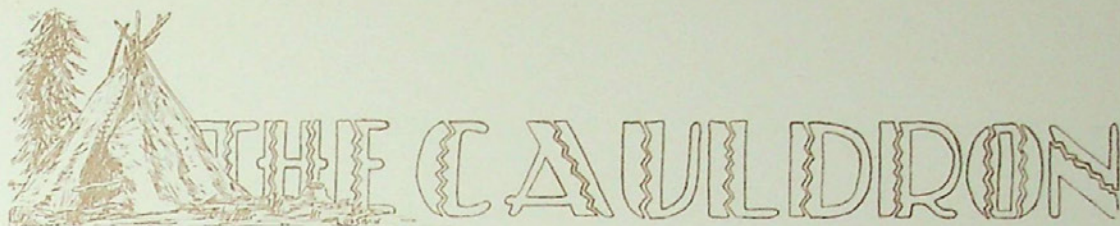

The staff was kept busy at work during the greater part of the term collecting individual photographs, arranging for club pictures, making individual "write-ups" and assisting in the general management of the book. Accuracy and completeness were our two aims.

The work, although it required patience and endurance, was very interesting and enjoyable to the staff members who, in cooperation with their fellow classmates, hope to make this year book a great success.

The meetings of the staff were held every Thursday afternoon at which time new ideas in each department were presented and discussed. Many valuable conclusions, which were used in the making of our year book, were drawn from these discussions.

The members of the staff are:

<i>Editor-in-Chief</i>	Thomas Kichline
<i>Associate Editors</i>	Charlotte Meaker, Harry Crawford
<i>Photograph Editors</i>	Mary Ferry, William Rodda
<i>Society Editor</i>	Kathryn Redline
<i>Art Editor</i>	Emily Luch

LIBERTAS STAFF

Every high school, which is able to support one, publishes a school magazine. However, there are few, if any, which surpass our *Libertas*!

Our magazine has earned a high place in the Columbia Scholastic Press Association Membership, and during the last four years, has never failed to win an award. This year it has again won second place.

The *Libertas*, besides containing the news of the school and interviews with well-known people, also presents to the students, pages well filled with the best literary work of the school. This magazine is made possible by the cooperation of the students together with the efficient workmanship of the following staff:

<i>Managing Editor</i>Emily Lenore Luch, '32	<i>Art Editor</i>Carl Palmer, '33
<i>Editor</i>Claire Tyson, '32	<i>Reporters:</i>

THE GERMAN CLUB

The German Club held its very interesting and beneficial meetings on the last class period of each month. There were no permanent officers of the club, but officers and a program committee were chosen for each meeting by Miss Mary Hess, the faculty advisor. This plan gave various members of the club experience in conducting a meeting. All speaking in the club meetings is done in the German language.

The boys and girls presided at alternate meetings. Diversified entertainment was planned. The program dealt with subjects on German music, German poetry, the geography of Germany, education in Germany, and also the lives of distinguished German poets, composers, and authors.

The club was privileged to have a special treat this year. March 22, 1932, was the one hundredth year since the death of Göethe, the immortal German poet. The life of Göethe is being commemorated all over the world during this year, and in his honor Miss Mary Hess delivered an illustrated address on February 26, 1932.

THE CAULDRON

EL CÍRCULO ROJO Y AMARILLO

A small but active Spanish Club—the first semester group.

Its officers:

<i>President</i>	Joseph Kempfer	<i>Secretary</i>	Rhoda Kemmerer
<i>Vice-President</i>	Max Koffel	<i>Treasurer</i>	Joseph Borda

The club held its meetings every other Monday in the Music room, where the members had the use of a piano. The programs consisted of short talks, poems, or stories of the life and customs of Spain or other Spanish-speaking countries. Sometimes the members entertained themselves by singing songs or playing a game in the Spanish language. All the meetings were conducted entirely in Spanish.

Just before the Christmas holidays the club presented a short play called "Una Tragedia de Amor." This was anything but a tragedy, for it really was a hilarious comedy. The cast included Max Koffel, the tyrannical but silly old king; Rhoda Kemmerer, the self-centered and ruthless queen; Susan Wright, the lovely young shepherdess; Joseph Kempfer, the romantic young shepherd; Lewis Ockenhouse, Edward Deibert, Joseph Borda, and Donald Bachman, the four men whose solemn duty it was to assist in the removal of the dead shepherd and shepherdess; Owen and Thomas McCall, who together constituted the curtain. This play was given in room 103 at 3:05 for all students who desired to come. (The price of admission—one cent.)

The treasury was finally depleted to buy a Spanish-English, English-Spanish Cuyas Dictionary for the School Library.

At the end of the first semester the work of the club was turned over to the following able students entering Spanish 2-2 who continued the club work: Emma Meinecke, Helen Clymer, Joy Readler, Pearl Schleicher, Edgar Mancke, and Stephen Polgar.

DRAMATICS CLUB

The Dramatics Club, a very outstanding organization of the school, has again proved itself worthy of remembrance.

The club, with Miss Crow as its faculty advisor, meets every Tuesday afternoon. At some meetings short plays were enacted while at others, discussions on the *Acting and play Production* by Andrews and Weirick were given by the members. The one outstanding event of the Dramatic Club will be the annual presentation of the Senior Play.

The Club officers are as follows:

<i>President</i>Miriam R. Walker	<i>Secretary</i>Ethel Hochella
<i>Vice-President</i>Vincent J. Pazzetti	<i>Treasurer</i>Kenneth Hensinger
<i>Librarian</i> —Jeanne Tyson	

The club consists of the following forty members:

Harry Crawford	Helen Frankenfield	Vera Rockwell
Sophie Cherkis	Grace Heverly	Evelyn Richter
Ruth Coffin	Mary Jane Howlett	Miriam Walker
Alice Derr	James Croushore	Grace Weidner

THE CAULDRON

THE ART CLUB

Early in the school term, the Art Club was organized and already engaged in its work. The officers elected for the year 1931-32 were: President, Gladys George; vice-president, Joseph Ronco; and secretary and treasurer, Rhoda Kemmerer.

Throughout the school term, the members of the Art Club were learning new and practicing the already known phases of art. Among the varied types of work done by the students were water color, crayon, etching, charcoal, pen and ink, and others.

The Art Club did not occupy their time only with art work but enjoyed interesting and varied events. For example, on February 3rd, the art club visited the engraving department of the *Times Publishing Company* and watched the process of making halftones for the CAULDRON; on March 8, Mr. Jermyn presented a lecture on commercial art to the Art Club, and the latest event was an exhibition of former graduates' art work. The collection consisted of silver and pewter designed by a member of the class of '21 and examples of fashion designing and commercial art by former graduates.

On the other occasions the members of the Art Club thoroughly enjoyed themselves at their own small parties and outings.

The members of the Art Club are: Irene Albert, Piroska Biro, Zolton Bolgar, Harold Bittenbender, Gladys George, Alda Gilio, John Hilpert, Myra Hilpert, Ruth Hottle, Rhoda Kemmerer, Margaret Kunkle, Hylia Losman, Emily Luch, Joseph Ronco, LeRoy Ruth, Paul Snyder, Mary Walters, Pauline Zavacky, Elsie Hontz, Ann Korlick, and Edward Schaffer.

THE CAULDRON

CAMERA CLUB

The Camera Club, one of the more recent organizations of the school, was organized in 1929 to take care of the photographic work of THE CAULDRON. The year of 1932 marks the third year of the club's existence.

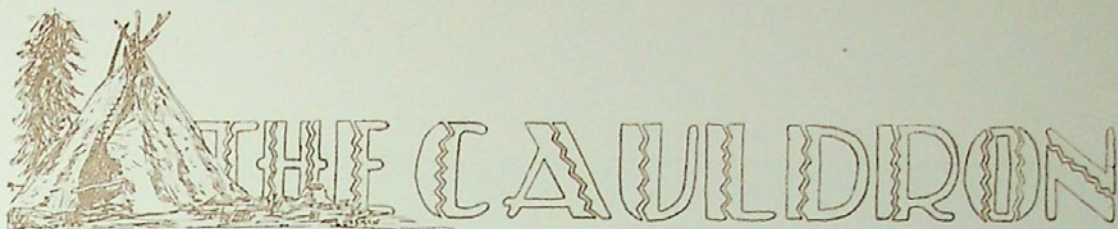

The object of the club is to instruct the members in the use of the camera, and in the proper method of developing and printing pictures. Much time is spent in the study of group arrangements, and in illustrating the need of suitable and effective backgrounds. Thus the members of the club work in conjunction with the CAULDRON staff in its endeavor to make the publication as much a student project as possible.

The club is responsible for all club groups of the school, all the seasonal sport groups, as well as the action pictures of the same groups or teams.

Every individual member, under the supervision of Mr. Kehler, helps with this work. The club members are as follows: Mr. L. B. Kehler, Clarence Bonser, Richard Frederick, Galen Foulstick, John George, Melvin Hoch, Ralph Michael, Paul Smith, Andrew Toth, Charles Weeks, and Francis Williams.

THE CAULDRON

GIRLS' GLEE CLUB

One could tell from the crowd of girls that assembled outside of the music room in early September that the "try-outs" for the Girls' Glee Club were in full sway.

There was keener competition among the girls than among the boys, and this year, from approximately three hundred aspirants, fifty-five girls were chosen as members.

The Girls' Glee Club participated in a Thanksgiving Cantata and a Christmas Vesper Service. In addition to these performances, this year the girls sang some very difficult selections in Chapel.

Although most of the time is spent in hard work, there are some social activities sponsored by the combined Glee Clubs; the most outstanding of which is the annual Hallowe'en party, which always proved to be a great success.

The Glee Clubs were given an additional honor this year by singing for the Lehigh Valley Arts Association and Child Helping Conference.

The Girls' Glee Club has chosen the following members for its officers:

<i>President</i>	Vincenzina De Bellis
<i>Vice-president</i>	Veronica Klinkoff
<i>Secretary</i>	Catherine Kelly
<i>Treasurer</i>	Kathryn Redline
<i>Librarians</i>	Ruth Finkle Mabel Michael

BOYS' GLEE CLUB

Newcomers at Liberty wondered at the queer strains emanating from the music room on early September mornings. The producers of these tones were none other than the candidates for the Boys' Glee Club.

According to records, the numbers of applicants has increased and this year, from two hundred or more aspirants a Boys' Glee Club, consisting of forty-eight members, was chosen.

This organization, along with the Girls' Glee Club, presented a Thanksgiving Cantata in Chapel for the students while a Vesper Service, given in song and tableaux, was presented for the public on the Sunday previous to Christmas. In addition, the combined glee clubs presented a spring feature which, this year, is a comedy opera entitled "The Firefly," by Rudolf Friml.

The Boys' Glee Club also made several appearances in Chapel throughout the year. The boys have chosen the following officers:

<i>President</i>	Edgar Ashton
<i>Vice-president</i>	Max Koffel
<i>Secretary</i>	Jack Dennis
<i>Librarians</i>	Henry Ritter Nevin Brown

THE OPERETTA

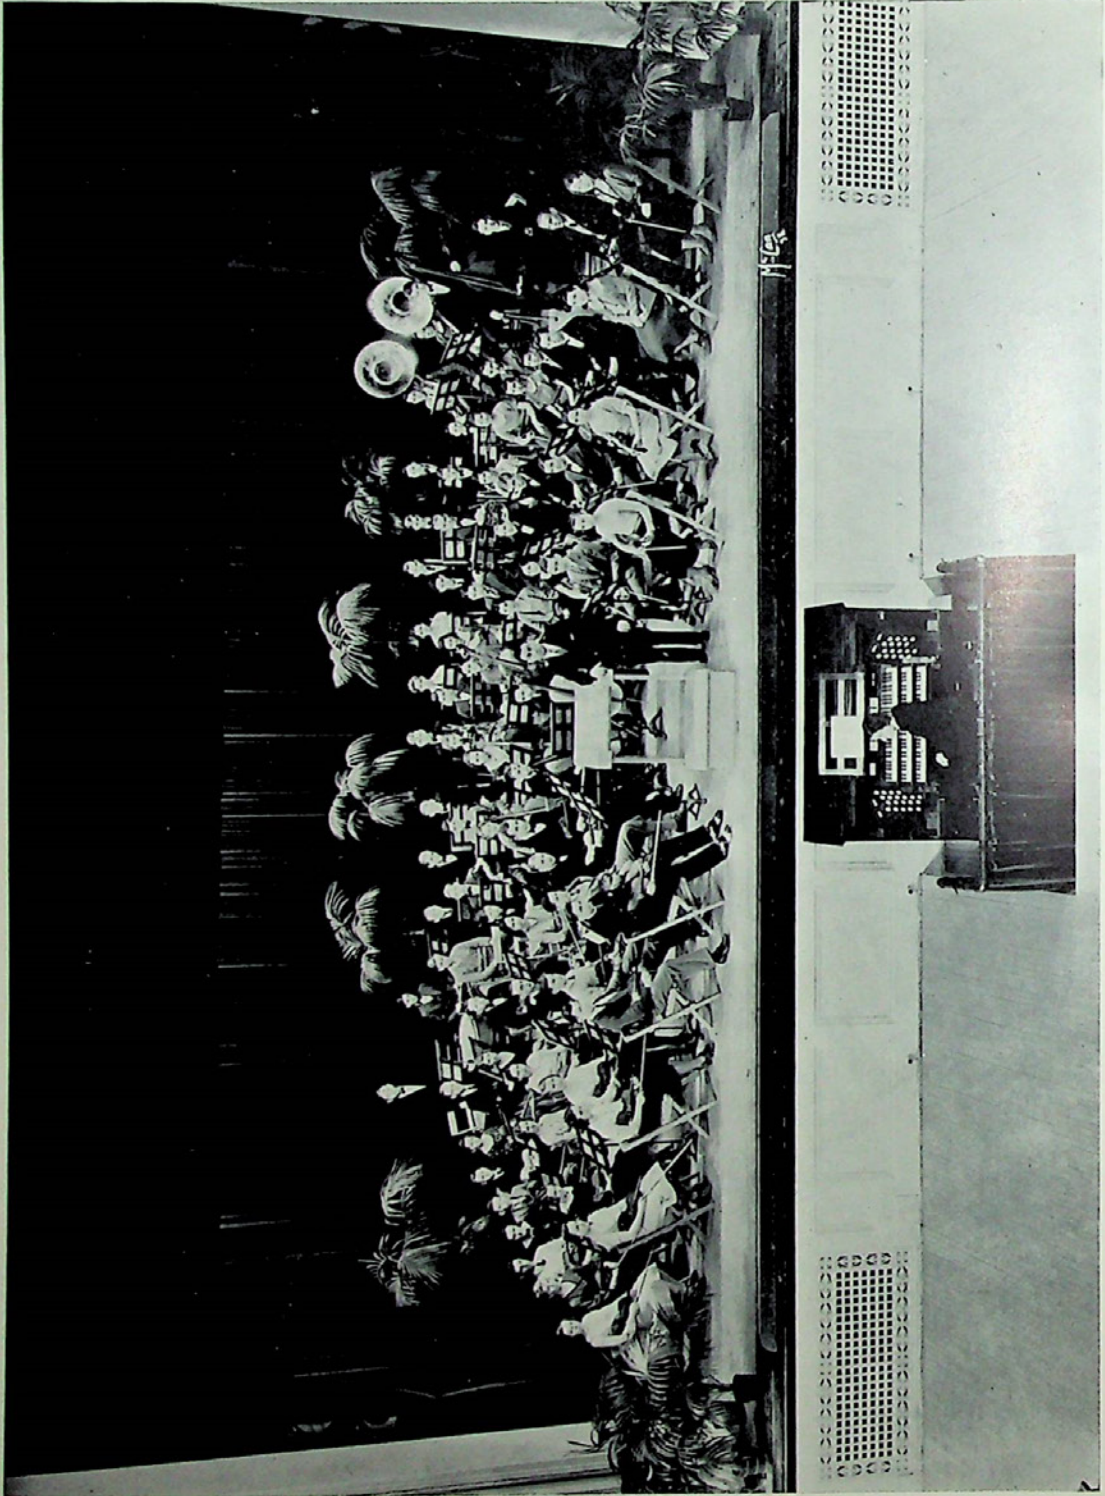

What student of Liberty High School thinks of spring without immediately visioning the stage transformed into fairyland by the presentation of the operetta? Truly, the school interest in this production is so great that it has spread not only through Bethlehem, but even to other cities and communities. A proof of this widespread enthusiasm is shown by the fact that each year, at least four performances are given—one matinee and three evening performances.

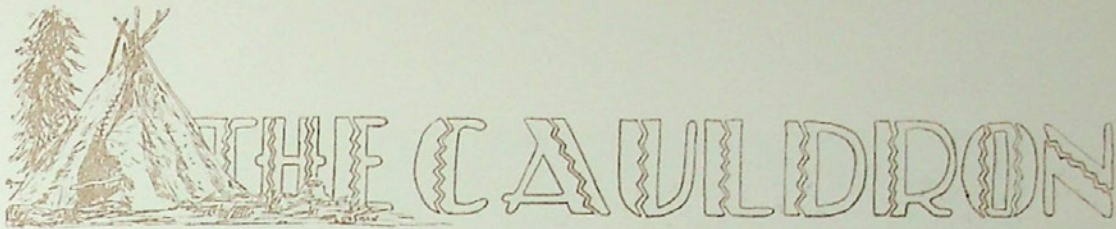

The production to be presented this year is "The Firefly," a comedy opera written by Rudolf Friml. The opening scene of the first act is laid in New York during the present time. The second act is an outdoor scene in Bermuda, while the third act is located in Mrs. Van Dare's New York home. Because of its tuneful score and clever libretto, those in charge of the work feel certain that the general public will find as keen enjoyment in it as have the cast and the choruses.

The music, dancing, costuming, staging, and publicity are all in the hands of a very talented and able faculty, whose willingness and cooperation are especially appreciated at this time.

The cast of "The Firefly" is as follows:

Nina, an Italian street singer.....	Marion Steely
Mrs. Van Dare.....	Ellen Jane Leftwich, Joy Readler
Geraldine, niece of Mrs. Van Dare.....	Catherine Kelly
Sybil, Mrs. Van Dare's daughter.....	Ruth Finkle
Suzette, a French maid.....	Vincenzina De Bellis
Jenkins, a valet.....	Ross Browne
Jack Thurston, Geraldine's sweetheart.....	Carstens Haas
Papa Franz.....	William Iobst
Mr. Thurston.....	Norman Stahl
Pietro, an Italian servant.....	Max Koffel
Policeman.....	Paul Peters
Corelli.....	Harry Harchar

ORCHESTRA

The season of 1931 to 1932 proved to be a most successful one to this outstanding musical organization.

The orchestra, under the capable directorship of Mr. Rikapito, entertained the school several times during the Chapel exercises and assisted in the musical presentations of the school. The annual concert was held on April 8th; the program presented was as follows:

1. Magic FluteMozart
2. Peer Gynt Suite.....Grieg
3. Selections from "The Firefly".....Rudolf Friml
4. Blue Danube Waltz.....Strauss
5. Second SymphonyHaydn
6. Concert in G Minor.....Mendelssohn

The officers of the orchestra are as follows:

President.....Charles Buss *Vice-President*.....Mary Appel
Secretary and Treasurer.....Terrence Garrity

The orchestra consists of the following members: Eleanor Ackerman, Ruth Adams, Lucy Albert, Mary Apple, Kenneth Bartholomew, Louise Belzner, James Betz, Dorothy Bigley, Charles Buss, Raymond Feilbach, Merritt Frankenfeld, Beatrice Frey, Terrence Garrity, Margaret Geist, Alex Gomboz, Carsteno Haas, Lahoma Hayes, Althea Herman, Michael Cassano, Albert Cirino, Albin Decknick, Bertha Deitrick, Merritt Deysher, Harrison Knauss, Albert Kuder, Donald Lawrence, Elizabeth Lindstrom, Lillian Lohrman, James Mack, Philip MacLeod, Edgar Mancke, Rosemary McCandless, Eugene McHugh, Marjorie Miller, Alfred Mitman, Josephine Nagy, Audrey Ohr, Parker Palmer, James Patton, Ronald Payrow, Michael Peckutowski, Lars Peterson, William Iobst, Ray Wallander, Ellen Sauers, Myra Hydusik, Eliza Jane Kemmerer, James Kish, John Kline, Donald Kram, William Pillar, John Podgursky, Florian Polgar, Kenneth Roedel, Catherine Schaller, John Sellers, Roy Smith, Max Stauffer, Catherine Strasburg, Dorothy Todd, Eugene Uhler, John Ulrich, Herman Vought, Olive Wakely, Charlotte Weber, Joseph Wzantek, Mary Zelko, Clem Sheridan, Frederick Johnson, Blair Weaver, Ross Browne, Ellen Stirk.

BAND

The band, one of the most outstanding musical organizations of the school, has again completed a very successful season.

This organization, under the very capable directorship of Mr. Rikapito, gave its annual concert with unusual success on Thursday, February 18th.

They presented the following program:

1. Pomp and Circumstance.....Elgar
2. Scene PittoresqueMassenet
3. Selections from "Aida".....Verdi
4. The Mocking Bird (Xylophone Solo by James Betz).....Stobble
5. Reue Angelique (Kamennoi-Ostrow).....Rubinstein
6. Overture from 1812.....Tschaikowsky
7. The Alma Mater.

This reliable organization is a great asset to the school and is always ready to be of assistance at the various athletic contests and activities of the school.

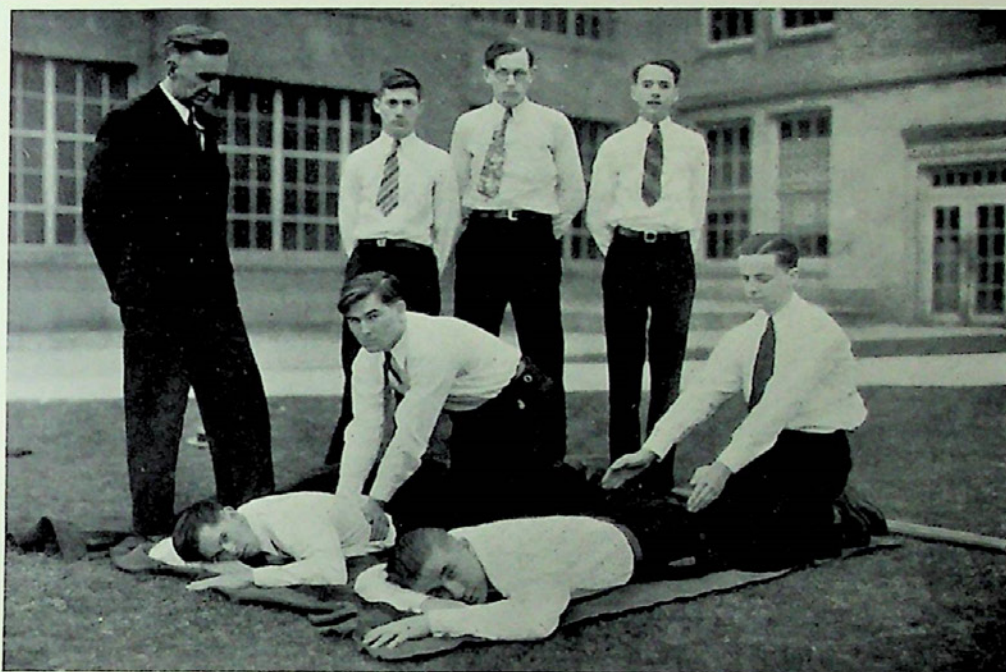

The officers of the band are as follows:

President.....Merritt Deysher *Vice-President*.....Theodore Hartman
Secretary and Treasurer.....Frederick Johnson
Librarians..Althea Herman, Jay Lease, James Mack

The band is composed of the following ninety-six members: Catherine Adams, William Adams, Henry Albert, William Bartch, Paul Bishop, Joseph Bistriz, Alfred Bornstein, Frank Braucci, Francis Chapman, Elmer Croushore, Albert Cirino, William Dankel, Edward Deibert, Lloyd Drissel, Merritt Deysher, George Flegel, Nevin Fidler, Percy Freeman, Kenneth Frey, Morton Searfass, John McLeary, Joan Smlner, Kenneth Roedel, Harold Newhard, Howard Green, Henry Greiner, Roger Grube, Theodore Hartman, John Hilpert, Morris Hippenstiel, Naomi Hittinger, Walter Hoffert, Harold Hottle, Maynard Hottle, Franklin Kilpatrick, Samuel Kilpatrick, Russel Klinkoff, Charles Pillsbury, Harold Russell, Joseph Ronca, Clayton Sandt, Nettie Selvage, Paul Selvage, Ray Shall, Charles Shenk, John Podgusky, Arthur Meixell, Jack Sigmon, Vincent Singley, Homer Schlenker, Jack O'Neil, Thomas Strohl, Joan Shimer, Charles Schik, Frederick Johnson, Mary Apple, John Urshitz, William Iobst, Charles Buss, Marion Warrick, Ross Browne, Terrence Garrity, Harband Weaver, Frank Horsecroft, Harry Hydesuk, Elwood Cromwell, Earl Bodder, Charles Derr, Harry Larose, Jay Lease, Thorpe Mayes, Dick Marstin, Catherine Shaller, John Nolf, Ralph Smith, Max Stauffer, Carl Palmer, Allen Strouse, Blair Weaver, James Betz, Miriam Walker, Ray Wallander, Raymond Feilbach, Jean Weaver, Ellen Stirk, Althea Herman, George Brotzman, Frank Kelpatrick, Donald Kramm, James Mack, Philip MacLeod, Edgar Mancke, Alfred Mitman, James Patton, Ronald Payrow, William Woodring and Anthony Rikapito (Mascot).

THE CAULDRON

FIRST AID TEAM

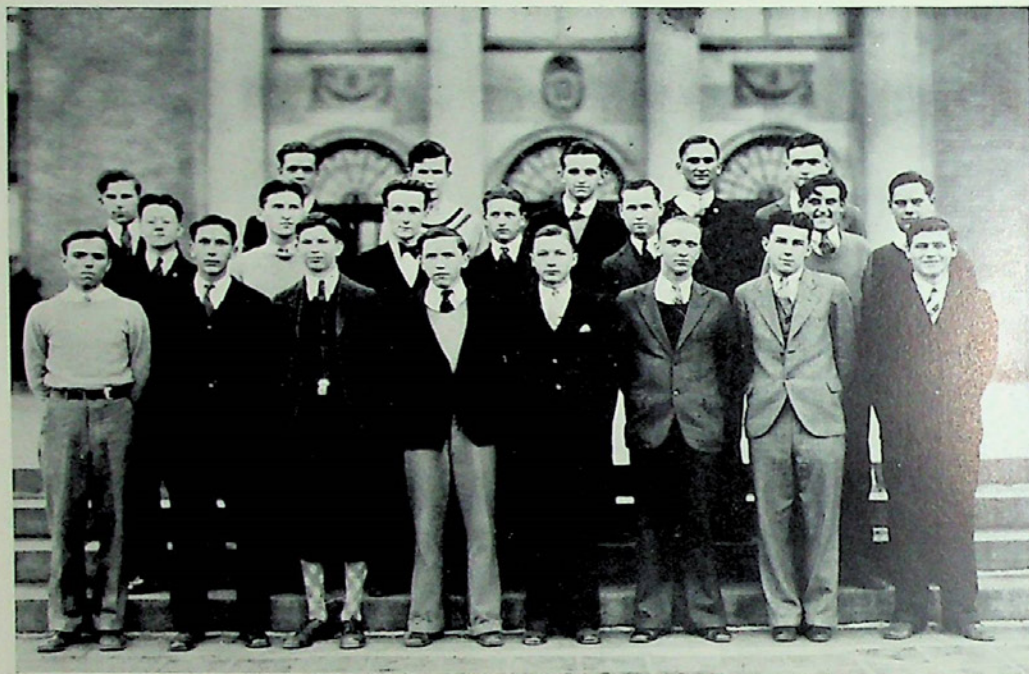

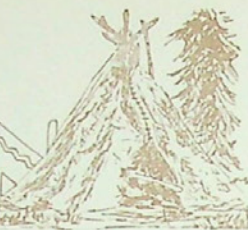

The Cabinet-making Department of the high school is the scene of much activity every Monday and Tuesday afternoon at 3:50, due to the apparent ambitions of half a score of boys to become members of the Senior First Aid Team. This annual course is sponsored by the Red Cross to further both the prevention of injury and the rendering of emergency aid when the problem presents itself. The instruction of the course is under the able supervision of Truman L. Frey, who has had an abundance of experience as a First Aid Director at the Bethlehem Steel Co., and who has taught the Junior and Senior Red Cross Courses. Twenty hours of instruction and practical application are required, and the course is completed with an examination, after which diplomas are awarded. Problems receiving the attention of the boys include lacerations, burns, fractures, shock, artificial respiration, and preparation for transportation, with many other sustained injuries receiving treatments.

The highest possible reward available for the high school students pursuing this valuable course is a diploma. The following boys are candidates for the team:

Paul Brooke
Donald Cressman
Curt Fickert
Ralph Michael
John Miller

Leon Myers
Frank Reynolds
Algernon Rice
Norman Stahl
Donald Waite

THE CAULDRON

THE INDUSTRIAL DEPARTMENT

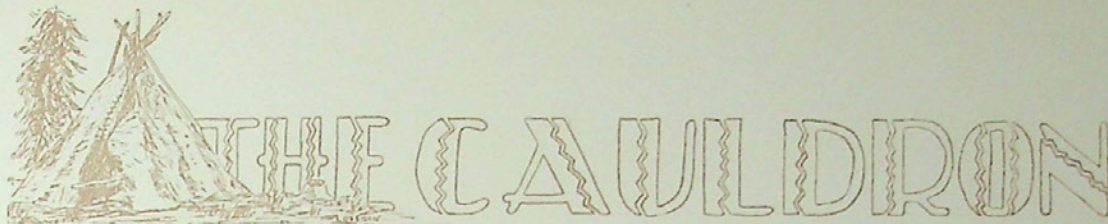

The Industrial Department of Liberty High School is rated as one of the best in the whole State of Pennsylvania. The trades taught in this department are as follows: Cabinetmaking, Drafting, Electrical Work, Machine Shop Practice, Patternmaking, and Printing. Instruction in these several trades is given at Liberty High School in the various shops located in the basement and on the third floor. Exactly half the time spent in school by these "Industrial Boys" is spent in the shops learning their chosen trade by practice and theory, or rather by theory and practice, for the theory is studied before it is applied, or practiced. These trades will be considered in detail later.

During the remaining half of the time the boys study the academic subjects at the South Side Junior High School. These include trigonometry, history, English, and chemistry. Exactly the same ground is covered as is covered by the people who are studying to go to college. The books, examinations, and standards for the studies are just the same as for any other course given in the high school. The teachers of the different subjects are as follows: Mr. Koons, trigonometry; Mr. Fishel, history; Mr. King, English; and Mr. Engels, chemistry.

Of the twenty-two members of the Industrial Senior Class, eight are scheduled to be graduated at mid-year. The remaining fourteen will be graduated in June.

The separate trades considered in detail are as follows:

CABINETMAKING.—Mr. Frey, the teacher of cabinetmaking, is in charge of four Seniors. These boys, from the time they came to him as Freshmen, he has endeavored to train in the art of making things from wood. This art is practiced manually and by means of machines. One of the first things to be learned is the name and care of the various tools, both machine and hand varieties. The most important work done in this shop is the making of the different kinds of school furniture. This includes chairs, desks, filing cabinets, display cabinets, and many other pieces of furniture. Practically every school in the Bethlehem District has some example of this work. Another important function of this trade is to supply the stage scenery for the plays, cantatas, and other entertainments given in the high school auditorium. Most of the articles made by the cabinetmakers must be painted, varnished, or otherwise finished. All this is taught to them. After the regular assigned job is finished, the time left is their own to use; during this time are made the personal projects, or those things they wish to make for their own use.

DRAFTING.—Mr. Kehler is the instructor in this subject. During the first two years mechanical drawing is studied. This deals with machine parts, their design, strength, shape, and construction. Of the four sections of this trade, namely: mechanical drawing, machine design, architectural, and structural drafting, the structural division is the choice of practically all in this trade. This section had its origin several years ago when the Bethlehem Steel Company decided to teach their routine and practice to boys in high school, thereby obtaining draftsmen for their structural work. Bethlehem High School is more fortunate than many schools because of this fine opportunity which provides training that allows placement of a large number of the graduates of this department. A student, if accepted by the Bethlehem Steel Company upon being graduated, is allowed three years toward his four-year apprenticeship for his two-year structural training; thus shortening the apprenticeship period to one year.

ELECTRICAL DEPARTMENT.—It is an interesting and probably little known fact that Mr. Hartman and Mr. Lerchamiller, the two instructors in this department, are graduates of the electrical course of this high school. For the first two and one-half years the student is required to take a general course in practical and theoretical electricity which consists chiefly of basic knowledge, elementary theory, and a little motor winding, and housewiring. The remaining one and one-half year is taken up by specialization in radio repair, motor winding and repair, building wiring, and electrical construction, or a general electrical course in preparation for college. The students are permitted to take their choice of the previously mentioned courses. The best known activity of this department is the stage lighting for the various productions staged by the students of the different organizations. The operating of this electrical work is done by the juniors and seniors of this department. The repair work on all the electrical equipment and wiring in all the school buildings in the Bethlehem School District is also done by these boys. A number of graduates of this course of training are placed with the following:

Bethlehem Steel, Bell Telephone, Pennsylvania Power & Light, Philadelphia Electric, Westinghouse Electric, and Radio Corporation of America. Several others are continuing their training in technical institutions.

MACHINE SHOP PRACTICE.—In the machine shop, the teacher, Mr. Ross, endeavors to instruct the boys: first, in the fundamental operations that they will be expected to cope with in the industrial shops; second, in assigning "projects" to them so they will acquire the fine touch and accuracy of a good machinist. These "projects" are possibly the most important work done in this shop and consist of an instruction sheet with the procedure necessary for each job. A time limit is set and after the job is finished on time it is inspected. Every bit of work turned out in this shop must pass as rigid an inspection for accuracy as in an industrial shop. Accuracy, the keynote of this trade, is constantly stressed and the boys must work, in most cases, within the thousandth part of an inch. After four years training in this shop, the boy is ready to take his place with an industrial concern and earn a fair wage.

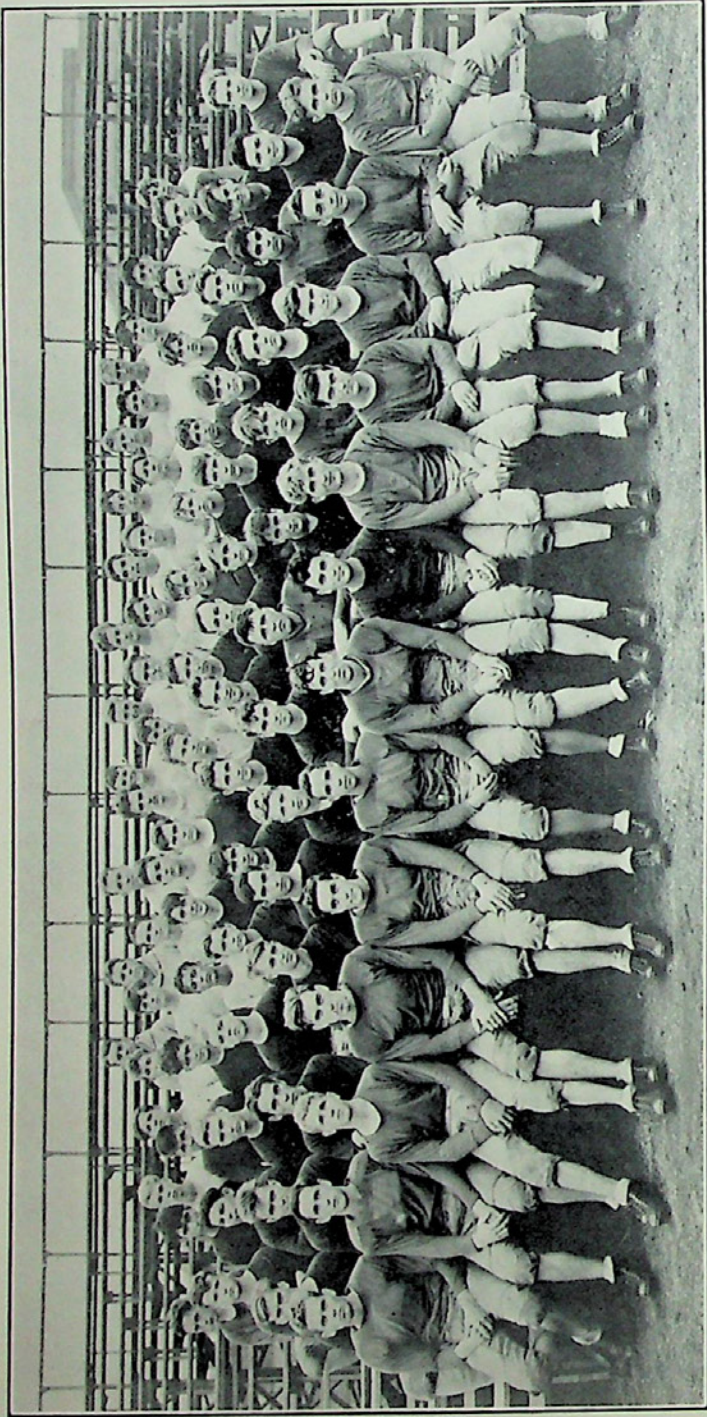

PATTERN MAKING.—This trade is very popular with some of the boys. Mr. Cressman, the teacher, attempts to drain his pupils in the almost forgotten art of making many peculiar shapes in wood with the utmost accuracy. This is a peculiar trade because the pattern maker who would become expert must know many things among which are the principles of molding, coremaking, drafting, and machining. There are many others but these are outstanding. Naturally he must know much about woods, wood-working tools, and must have skill in using them. Many things enter into making a pattern; the pattern maker must read a blueprint, visualize the object, have the power to transfer it from the blueprint to a perfect copy or model in wood. He must also know, and apply his knowledge of, molding, so that his finished pattern can be withdrawn from the sand easily. After four years' training in his chosen vocation, the boy, who has acquired skill in using the various machines and hand tools in making shapes and carvings in wood, is ready to go into the industrial pattern shop as an advanced apprentice with only one or two years to work before earning journeyman's wages.

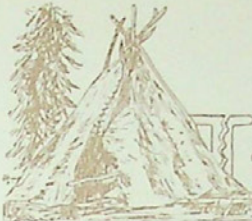

PRINTING.—In this shop Mr. Middleton teaches the boys the principles of the art for which Benjamin Franklin became so well known. Here the boys learn to set type by hand, and learn the theory of the various typesetting machines. They also learn about papermaking, an industry that depends almost entirely upon the printing trade. Practice in press operation is easily secured, for most of the printed matter used in the school is made in this shop. Here also the "Libertas" takes form. Bookbinding and design of pages are also studied so that the printers learn everything necessary in the make-up of any job which comes from the press. Another not unimportant subject taught is the estimating of job costs so that the boys, when they get out into the world, will know of every branch connected with their trade. These printers when graduated from the school are ready to take their place in any commercial pressroom, and do satisfactory work.

The boys who are graduated from this Industrial Department are well-trained, young, and eager for that great personal goal—success. In seeking success, they move toward that greatest aim of the human race—progress.

FOOTBALL

This past season contained more suspense, color, and fast action than could be found in the past interesting seasons of the school's history. Only in fiction does a fighting team take it on the chin three times and then come through for a brilliant finish.

The season can be divided into two parts: the first four games containing one victory and three defeats; and the last, six victories. In the first game, Liberty was upset by Riverside, Class B Champions of New Jersey. The next game was played in Harrisburg on a hot afternoon. The John Harris High School had won State Championship. They beat Liberty to the tune of 27-0. At home High School had its first taste of victory. Pottsville was beaten 12-7. On a raw autumn afternoon, Lebanon was played at Lebanon. Twice when Liberty had the ball within Lebanon's five yard line, the ball was lost. The game ended with Lebanon the victor 13-6.

It was the fifth game, the Easton game, that marked the start of Liberty's triumphant march of six straight wins over its greatest rivals. In this contest the team showed that teamwork, precision, and efficiency which were to be responsible for its consistent success. Easton was trampled over by one march after another to her goal line. The score was 22-0 and no other victory with the exception of Allentown was more satisfactory. Since 1919, Easton has only been defeated twice by Liberty.

Then followed a string of victories over York, Phillipsburg, Norristown, and P.I.D. Throughout all these games the team continued to play in that manner termed "clicking."

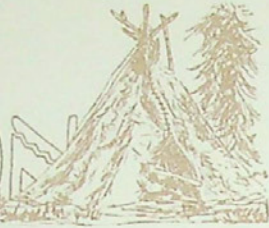

The climax of the season was the game with Allentown. Allentown had just completed a winning streak of twenty-nine games. They had defeated Liberty the previous year. Predictions favored Allentown heavily. Sport writers were debating as to whether Allentown would win by three or four touchdowns. Allentown's coach was highly confident of the result. In short, Liberty was the underdog. The first period was scoreless with both teams playing beautiful football. In the second period Allentown recovered a Bethlehem punt, which started them on a march to a touchdown. Their attempt at the extra point failed. The score was Allentown 6, Bethlehem 0, when the first half ended. After Bethlehem came back on the field, a feat was witnessed which by itself places the team among the greatest teams of our school's football history. In the third quarter "Artie" Green recovered an Allentown fumble. Liberty marched to Allentown's 6-yard line. There Allentown held. Then the team proved itself. Bethlehem started on the 31-yard line, to where Captain "Eddie" Moyer had returned Allentown's punt and did not stop until the score was Bethlehem 6, Allentown 6.

"Eddie" Moyer then kicked the extra point making the score 7-6 in favor of Bethlehem. The game had seen all the scoring it was to see, but one great thrill remained. In the last few minutes Allentown started on a determined march toward Liberty's goal, but before they were able to reach the goal line, which was within 15 yards, the final whistle blew—Allentown was conquered 7-6.

When one praises a team, he praises its coaches. It depends on the coaches as to whether a team is good or not. The staff consisted of Leo Prendergast, head coach; William Pelton, backfield coach; and Paul Troxell, assistant coach. It was through their unceasing efforts that Liberty had such a great season.

It was the first time in the history of Liberty High School that Allentown, Easton, and Norristown were defeated in the same season. What more can one ask—nothing.

THE CAULDRON

Message from Head Coach Leo F. Prendergast:

Seniors:—I have known you for four years. Your school spirit has been one that you can always feel proud of. You have supported all activities, whether it be Dramatics, Literary Club, Band, Orchestra, Glee Club or Athletics.

Athletes:—You have worked hard and faithfully. Your teams have shown the results of your time and effort. Every class has been loyal to you in victory and defeat.

Accept my gratitude, and good luck to you all.

LEO F. PRENDERGAST.

Message from Assistant Coach Wm. C. Pelton:

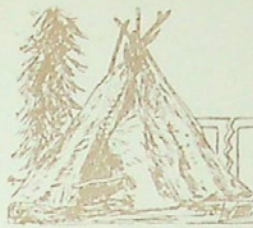

A young man develops his mind, and the control of it, and discipline of it, in his academic work; the athletic field is the big laboratory of experimentation when the young man learns to discipline himself, and experiments with himself against other men, mentally, emotionally, and physically.

BASEBALL

After the squad had been cut, the team started out by walloping Bangor 19-5. Both sides were hitting the ball around until the fourth when two home runs placed Bethlehem way ahead of the game. This lead was kept to the end of the game.

The next game was at Sellersville against Sellersville-Perkasie where the going was a little tougher. At the end of the third inning Sellersville-Perkasie was leading 10-3. In the meantime Lukievics was sent in and he held Sellersville-Perkasie, limiting them to only one run. While he did this the team collected nine runs beating Sellersville by the slim margin of one run. The final score was 12-11.

Bethlehem, although having one veteran infielder and two veteran outfielders, has a team which looks as though it will have a good season.

THE CAULDRON

Message from Coach Wm. H. Emrey:

Another year of school has passed, and more history is written into the annals of our athletic achievements. Each season we are endeavoring to better the accomplishments of the past, and in so doing, maintain the highest standards.

Progress in the development of the athletic program may be impeded because of economic conditions, but in view of these conditions, we must carry on in the development of the mind and body. By curtailment of the foregoing, it would mean the loss of our future leaders of civic and industrial enterprises.

It is true that it is impossible for every child of school age to participate in sports, but for the unfortunate ones who are not able, the physical education department is reaching out to meet their needs.

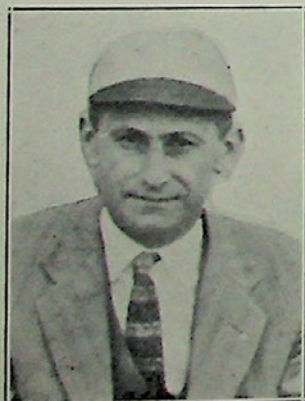

The experiences gained by those participating in the various athletic contests are assets in the ledger of life. No matter how fiercely the contest may be waged, may you be the "winner" in victory or defeat. Set your ideals to the highest standards, being ever mindful to be true and loyal to all your undertakings.

To the members of the graduating class who have taken an active part in basketball or track, may you carry on with the same true, gentlemanly, and sportsmanlike spirit as you have shown in your undergraduate days.

May "Success" crown your endeavors.

Sincerely,

W. H. EMREY.

BASKETBALL

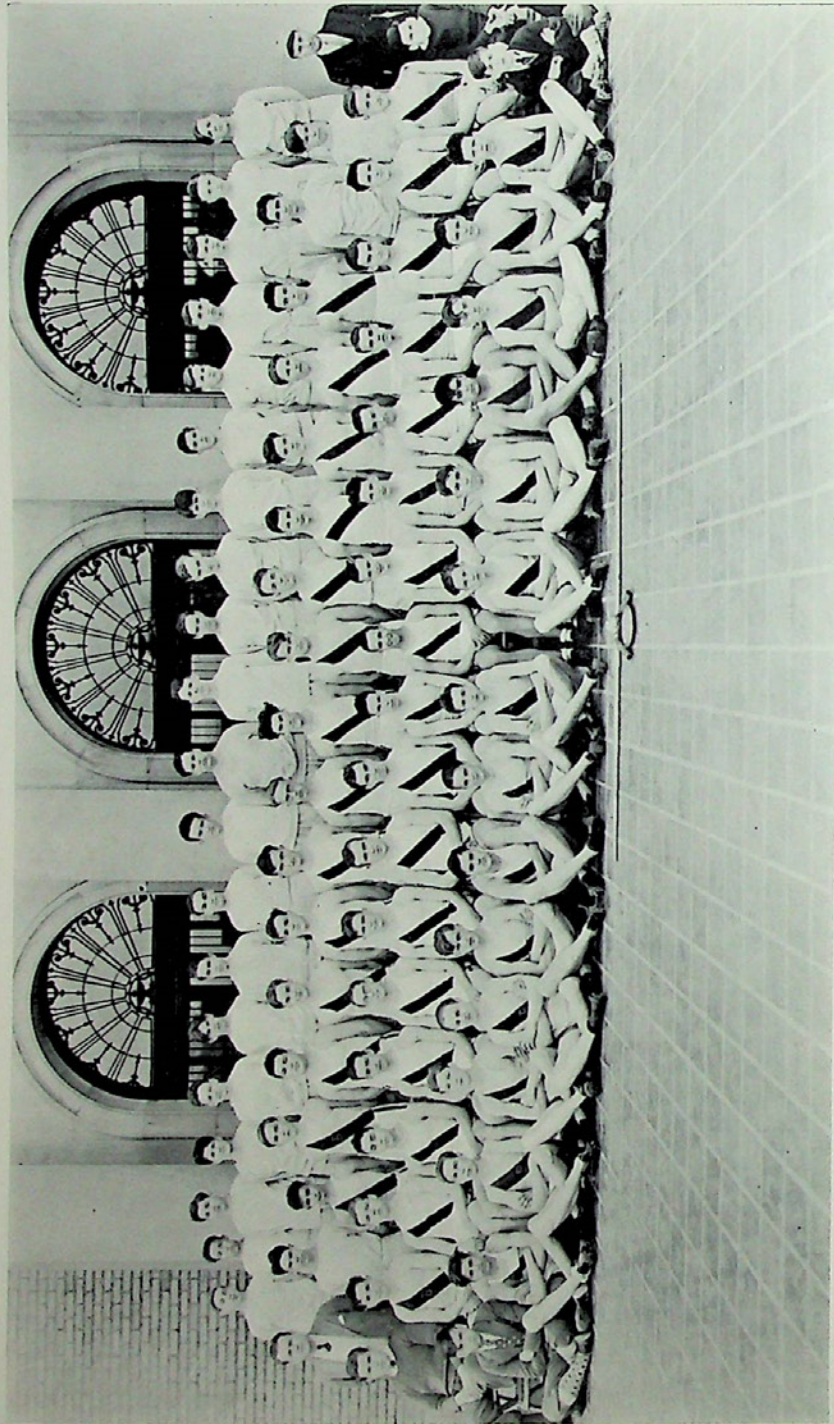

Sensational finishes, breath taking shots, tense overtime periods, well-earned victories,—these are the characteristics of the 1931-1932 Red and Blue cage team. The boys strove hard this year to give "Pop" Emrey a real championship team and just fell a little short of it, losing the last game to Hazleton in an overtime period by one point. Commendable victories were turned in over powerful outside aggregations such as Mahanoy City, Lebanon, and the Philadelphia Institute for the Deaf.

The statistics at the close of the season show that the Liberty High team was triumphant in thirteen out of eighteen games. This is indeed a record to be proud of when the keen competition the team was against is considered. The school should rightfully be proud of the fine showing this year's team has made.

The members of this year's squad include "Bobby" Taylor, "Booby" Long, "Steve" Polgar, Captain "Ants" Grebenar, "Eddie" Moyer, "Veetz" Lukievics, "Louie" Ockenhouse, "Lenny" Jaeger, "Billy" Rupert, "Harry" Greenberg, "Jakie" White, "Joe" Superka and "Tom" Garihan.

Taylor, Moyer, Ockenhouse, White, and Garihan will be lost to the team next year.

TRACK

Liberty High's track team opened the season by defeating the Alumni. The final score was 56 to 43. With the exception of the Seniors, the meet brought out the fact that there are some Juniors, Sophomores, and Freshmen who look like exceptionally good material. There are four exceptional Freshmen. Consequently the prospect of winning the Championship of District No. 11 appears very bright. Coach Emrey expects a good deal from his veteran Seniors: "Jake" White (Captain); Thomas McCall, Harold Kline, Thomas Garihan, Alex Mesko, Vincent Pazzetti, John Sellers, Michael Cherkis, and Raymond Grant.

There are seven other Seniors on the squad about whom little is known because this is their first year. They are as follows: Sidney Bowker, William Rodda, John Koshko, George Koehler, Frank Snyder, and Ernest Thorn.

CROSS COUNTRY

Cross Country running, introduced at Liberty High School by William H. Emrey, Coach of Basketball and Track, has had a very successful career during the three seasons since its introduction. After the first two meets, the harriers scored nine consecutive victories, two of which were perfect scores.

During the first season our team, captained by John Kruegar, was nosed out by a veteran Easton High School team with the difference of only one point in the score. The score was 27 to 28. Reading High School gained a more decisive victory on their home course to the tune of 18 to 37. Bethlehem gained its first victories against Scranton Central with an 18 to 37 score and against Allentown with a 16 to 39 score. The season was successfully brought to an end by winning the T. U. A. A. U. Championships. The score: Bethlehem 27—Easton 38—Allentown 55.

Owen McCall captained an undefeated 1930-31 team. The first meet of the season featuring a perfect score, 15 to 40, against Allentown. Phillipsburg was conquered by the score 23 to 32. Alex Mesko starred in the 16 to 39 victory over Reading when he set a new record of 11 minutes and 41 seconds for the 2½ mile Bethlehem Course.

The following ten candidates finished the present undefeated season:

Seniors: Thomas McCall (Captain), Alex Mesko, Harold Kline, Foster Frable, John Koshko, Victor Gregor.

Juniors: Donald Cressman, Richard Wasser (Captain-elect).

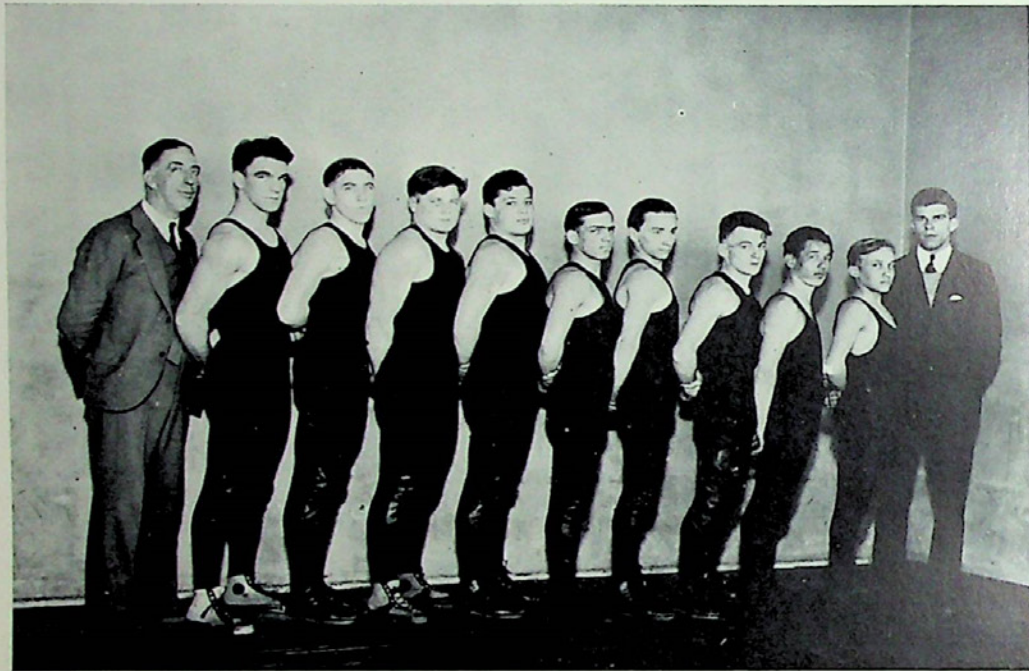

Sophomores: Charles Snyder, Ralph Waite.

Captain McCall, Mesko, and Kline were the three main stays of the team. The trio took first place in the first two meets and lost a perfect record only when Kline tied a Reading harrier for third place on Reading's difficult course. Tom McCall proved his mettle by setting a new record of 13 minutes, 5¼ seconds for the hilly course. Alex Mesko was a strong threat, but was unable to pass his fleet-footed team-mate.

The team opened the season against Phillipsburg whom they defeated 16-39. A perfect score was chalked against John Harris at Harrisburg 15-40, and Reading was defeated 19½-35½ keeping their slate clean with nine consecutive victories.

Message from Coach William Stark:

Most of you are now self-directing individuals with minds and consciences sufficiently strengthened and trained to entitle you to a "passing mark" in good citizenship.

Most of you will consequently become assets to your community. Personally, I know of no better field to develop those qualities in you, to make you better men, than athletics.

Finally, whatever you become, first learn the "Rules of the Game," and then play accordingly. After doing that and all the breaks of the game seem to go to the other fellow, just buck up and play all the harder, for, when the final score is reckoned, you will find that as usual, you are scoring for the honor of dear old Liberty High.

As individuals, I wish you the best of luck and all the many good things this good old world of ours holds in store, and that you have the courage and the "wit to get."

WRESTLING

This year's wrestling team, although severely handicapped by a complete loss of veterans, concluded a successful season. Under the expert coaching of Mr. Stark, these "green" men developed into a formidable team. Even though this was their first year of varsity wrestling, every man displayed the usual grit and courage of all Liberty athletes.

The exponents of the "twist and grunt" game are as follows: "Nick" Mesko, 95 lb.; Andrew Toth, 105 lb.; George Gemberling, 115 lb.; Alex Mesko, 126 lb.; Granville Labar, 135 lb.; Foster Frable, 145 lb.; Harvey Serfass, 155 lb.; William Rosenberg, 165 lb.; and Frank Sencenbach, 175 lb.

In their first meet Liberty showed our rafters to Freehold High School from New Jersey to the tune of 41-0. After a hard battle, Liberty succumbed to Newton High School from New Jersey. This team had all its veteran men from last year. The score was 20½-9½. The Overbrook Institute for the Blind furnished a rare treat to the wrestling enthusiasts when they visited here. They were defeated after a typical struggle, 32-0.

Liberty relinquished her hold on the Eastern States Interscholastic Championships to Newton High School in the annual Eastern States Intercollegiate Wrestling Meet here on March 7. Liberty placed a close second by virtue of placing champions in the 95, 115, and 175 lb. classes and runners-up in the 105, 126, and 155 pound classes.

Alex Mesko, Foster Frable, and Harvey Serfass will be lost to the team next year.

Soccer

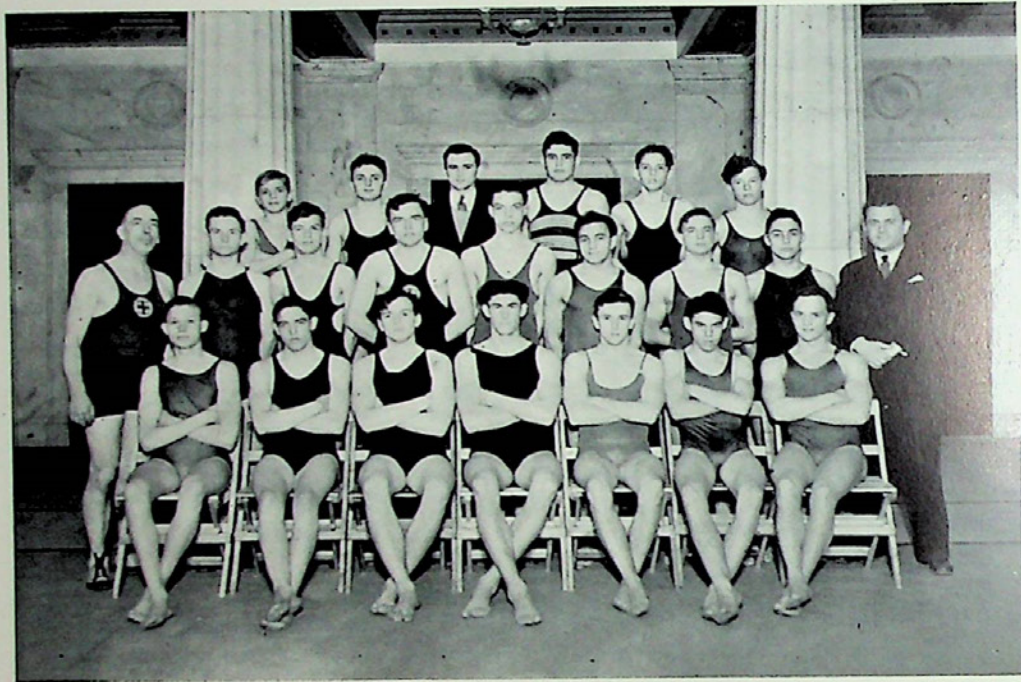

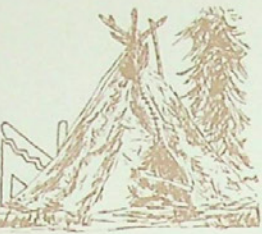

The Liberty soccer team opened its first game against its old rival, Hellertown. The game, played at Hellertown, proved to be exciting from the start to the finish. However, when the game was over, the score was 3-0 in favor of Hellertown.

For the next four following Saturdays the Starkmen showed much improvement. They beat the Perkiomen, Allentown Prep, and Belvidere teams without much difficulty.

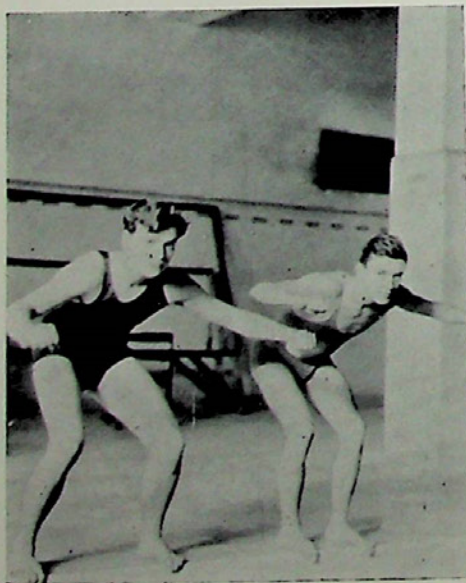

On a Wednesday afternoon before a good sized crowd from Hellertown and Bethlehem, Bethlehem again played Hellertown. It was the best game of the season. The boys played good ball. When Bethlehem had scored one goal and Hellertown two goals, late in the second half, Vernon Reed with cannon-ball force, put in a magnificent goal. Some of the spectators behind the goal kicked the ball out. Unfortunately the referee did not see the goal and therefore did not give it to Liberty. This game ended in a 2-1 score in favor of Hellertown.

The last game of the season was played against Perkiomen on the Liberty field. Liberty beat them by the large score of 5-0.

SWIMMING

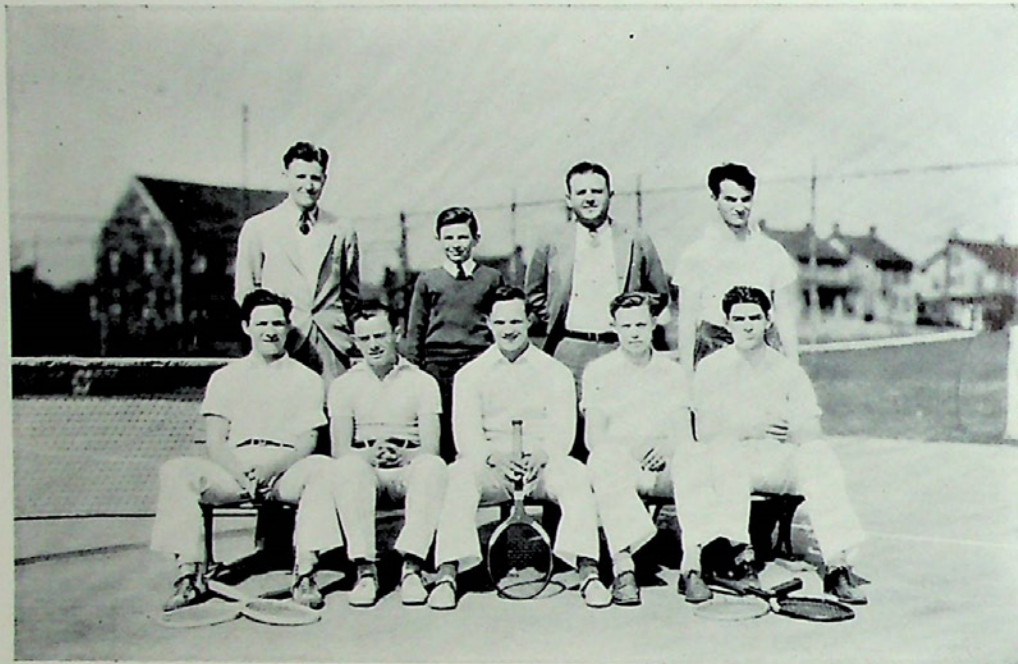

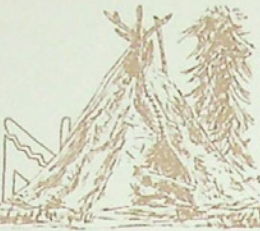

After a start that seemed to predict a poor season, the swimming team found new life and ended its schedule with unusual success.

Two closely contested meets were lost to Reading in the early part of the season. The first victory was earned in a close meet with Scranton Central High School. Easton continued a series of previous victories over Bethlehem natators in the Easton pool, but several weeks later she was turned to rout in the Bethlehem pool. The score was 34-32. In the meantime our swimmers had turned in a smashing victory over Dunmore High School by a score of 52-14.

The 200 yard relay team, composed of Pinter, Kudar, Knouss, and Bowker, tied the pool record in the second Easton meet with a time of 1:45.2. Harry Crawford established a new pool record of 1:14 in the 150 yard breaststroke during the meet with Scranton Central.

The two co-captains, "Bill" Hutchinson and Harry Crawford, along with Francis Knouss, 100 yard star; Sydney Bowker and Francis Pinter, 50 yard sprinters; "Pat" Pazzetti, back-stroke swimmer, and William Thompson, 220 yard man, will be lost in graduation this year.

THE CAULDRON

Message from Coach Charlotte M. Abernethy:

In the machine age through which we are now passing the term specialization as pertaining to industry, has become the one word. Its range has been so far-reaching that it has crept into certain phases of athletics. It is true that perfection in one thing keeps a person abreast with the competition. We, however, do not work upon this theory and have substituted the key-word "team-work" in its stead. The value of one's existence depends upon his or her contribution to society and this contribution may be curtailed by the lack of physical fitness on the part of the individual. We endeavor to offer to the adolescent child opportunities in the development of their physical fitness in order that they may lay their foundations of life. The heights to which they may rise depends upon the size of their foundations. Our contribution to the building of this pinnacle of life is to instill courage, self-control, loyalty, patience, and obedience.

The year 1932 was a successful season for the girls' basketball team. To the seniors who are graduating I trust they may benefit from their experiences in competition as well as to those who willingly donated their services.

Sincerely,

CHARLOTTE M. ABERNETHY.

GIRLS' BASKETBALL

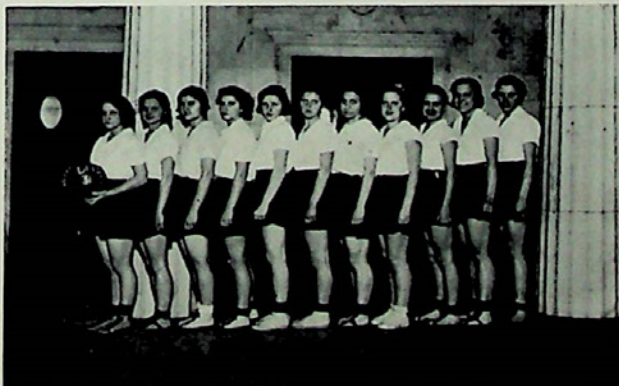

In the last fifteen seconds to play, a field goal was made and with the blow of the whistle the game was over. Thus Bethlehem closed its season with a 22-20 victory over Freeland.

"1932" has been a successful year for the girls, they won nine out of twelve games.

Though Miss Abernethy is losing most of the varsity squad including: Virginia Kvacky, Dorothy Achey, Lucille Benz, Dama Ruth, Sophie Cherkis, she still has hopes that next year's team will be bigger and better than ever, for it will be challenged to equal and better the standard set this year.

The following girls have earned their major letters:

Virginia Kvacky	Mildred Wisolosky	Dama Ruth	Marie Prosser
Josephine Yaszewska	Lucille Benz	Sophie Cherkis	Ruth Gruver
Josephine Kresge	Josephine Shuster	Dorothy Achey	Irene Lochist

May we hope that these girls who have successfully upheld Bethlehem High's Basketball record will "Carry On."

"Team-work" is the key-note, yet sacrifice bits are demanded. Patience, courage, and self-control, loyalty and obedience, describe accurately the athlete representing Bethlehem High School according to Coach Abernethy.

GIRLS' TENNIS

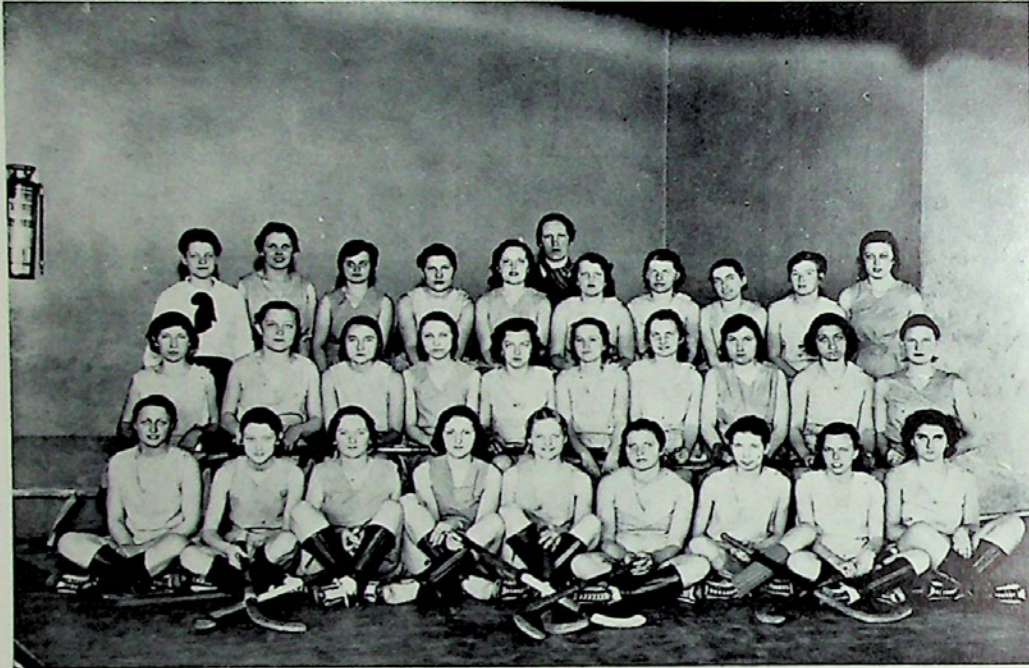

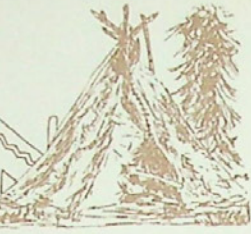

There has been much discussion of athletics being played intra-murally rather than inter-scholastically.

This year under the supervision of Miss Charlotte M. Abernethy, director of girls' education, tennis has been introduced as an intra-mural sport.

A call for those interested in taking part was issued by Miss Abernethy on April 19, and the representation of each class was as follows: Seniors, 25; Juniors, 25; Sophomores, 58; and Freshmen, 33, making a total of 141 students to represent the tennis interests at Bethlehem High School.

The tournament opened April 25 after all byes had been drawn. It being well under way will continue until the champion of each class has been decided after which each class champion will play for the crown of "champion of Bethlehem High School." The champion of each class will earn her minor class letter.

GIRLS' HOCKEY

The clashing and banging of hockey sticks symbolized the opening of the girls' hockey season. These girls, although comparatively green at the game, came through the season with two victories.

For many years the game of hockey has been the characteristic game of Canada, but it was introduced into the United States as late as 1897. It was accepted as one of the minor sports for girls, at Bethlehem High School in 1928. The popularity of hockey in Bethlehem has steadily increased. This season about one hundred girls answered Miss Abernethy's call for candidates. The Swimming Instructress, Miss Louise Snyder, a graduate of Sargent College, took Miss Abernethy's place. Miss Abernethy was busy making plans for basketball. Experiences on both high school and college hockey teams has made Miss Snyder a very capable coach.

Our hockey squad proved to us that they were capable of playing a good game. Their five defensive backfield and their fast forward line was a match for any team.

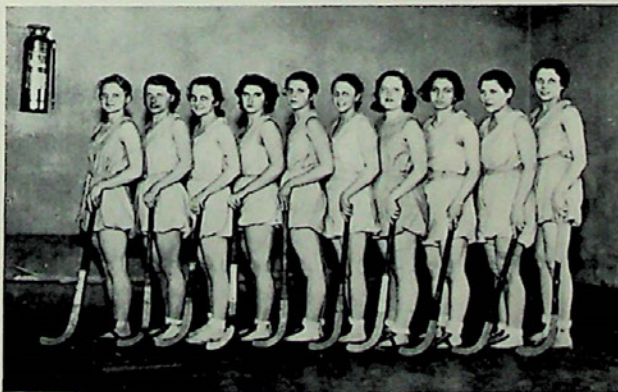

However, many of our most adept players will be lost by graduation: L. Benz, O. Yaszewska, S. Cherkis, D. Ruth, M. Wisolosky, D. Achey, M. Prosser, D. McNamara, M. Gerlach, H. Goth.

Although almost a whole team is leaving there are still a number of good experienced players left whom Coach Snyder can depend upon.

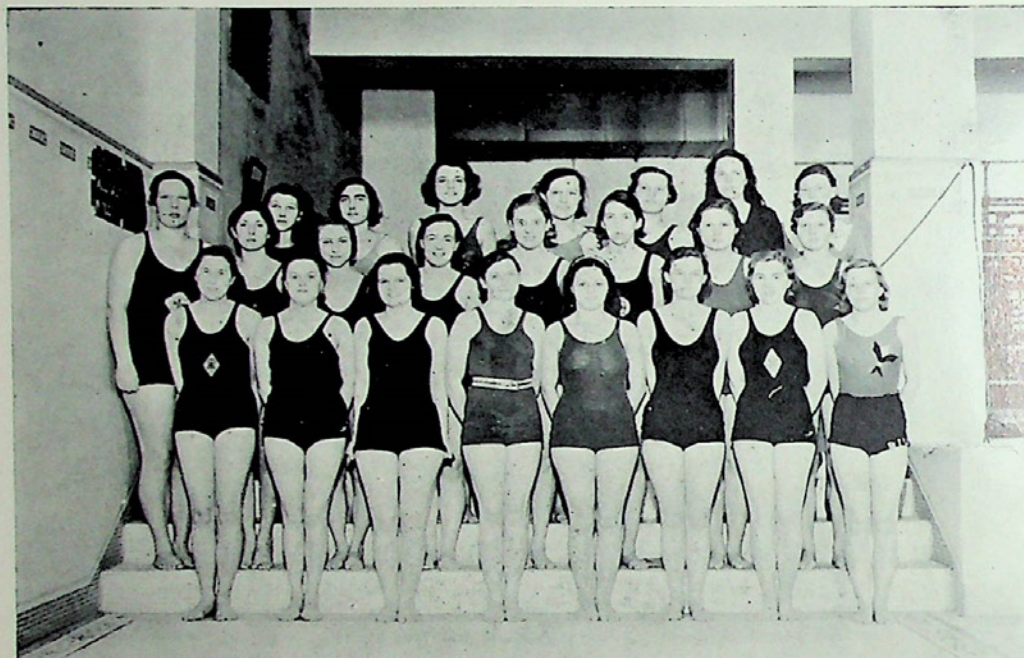

Few sports combine so many requirements of mental and physical alertness. To the spectator hockey is full of fascination, but to the player the pure joy of the game exceeds that of any other sport.

We of the hockey squad deeply appreciate Coach Snyder's patience and ability, and wish her more success in the future.

There are nineteen (19) girls receiving their letters: O Yaszewska, B. Heater, S. Cherkis, L. Benz, J. Yaszewska, D. Horn, D. Ruth, M. Wisolosky, M. Chubbuck, D. Achey, C. Greetham, J. Cunningham, M. Prosser, D. McNamara, M. Gerlach, I. Lochist, D. Lawrence, H. Goth, and G. Heverly (manager).

THE CAULDRON

GIRLS' LIFE SAVING

Swimmers are urged to learn the methods by which those in peril of drowning may be rescued without any risk to the rescuer. By study and practice of the methods outlined below, swimmers of ordinary ability should be prepared in case of necessity to bring a drowning person to safety. Performing rescues by means of a boat or buoy is always to be recommended. The swimming rescue is properly regarded as a last resort, to be used only when neither boat nor buoy is available.

The requirements for Senior Life-saving are as follows:

1. Candidate must have eight hours instruction.
2. Candidate must be seventeen years of age.

In addition, all candidates must complete the following requirements:

1. Essay on "Prone Pressure Method of Resuscitation" (200-500 words).
2. Tread water (30 seconds).
3. Float motionless (1 minute).
4. Disrobe in deep water and swim (100 yards).
5. One minute carry—subject fully clothed.
6. Fireman's carry.
7. Front strangle hold (4 times).
8. Back strangle hold (4 times).
9. Double wrist grip (4 times).
10. Two persons locked in front strangle—rescuing alternate subjects.
11. Demonstrate "Prone Pressure Method of Resuscitation" (1½ minutes).
12. Surface dive, recovering object three times (six to ten feet of water).
13. Front-back, and under water approaches.
14. Head carry (60 feet).
15. Cross chest carry (60 feet).
16. Tired swimmers carry (60 feet).
17. Oral Quiz.

Miss Louise Snyder, competent swimming instructress, is teaching the girls so they will be able to meet the requirements of Mr. Stark, Chairman of National Red Cross and District Examiner.

REVIEW OF THE PAST SEASON

When the past athletic season of Liberty High School will be gone over in years to come, the Seniors of the Class of '32 will find that during '32 all the sports of the school enjoyed a good season. The football season was one of the best in all the years of the school. Only one point was needed in basketball to put it on the road to a state championship. Although there was but one veteran left from the wrestling team of last year, it also had a favorable year. The other fall sports, cross-country, soccer, and swimming, showed that fighting spirit which puts teams on the top. The spring sports, track, baseball, and tennis, have material which will not allow a poor season.

The spirit of athletics is to make gentlemen of the boys who participate in the games. Credit must be given to the coaches who have put on the fields of action boys, really men, who proved themselves gentlemen. The public seems to consider the boys "heroes" if they win games and "bums" if they don't; while it is the coach who, whether they win or lose, worries about his boys and who takes the best care of them he can. And it is the coach who is entirely responsible for any defeats which his team may suffer and who does not get a great deal of credit for a victory.

Message from the Faculty Manager:

I desire, through the kindness of the CAULDRON, to express my appreciation and thanks to the students, athletes, coaches, and faculty for the loyal spirit of cooperation in all our athletic endeavors throughout the past year.

It is my sincere hope that the incoming classes will have that true Bethlehem High spirit, which has been manifested so nobly by the class of 1932. In so doing the success of athletics in the future will be assured.

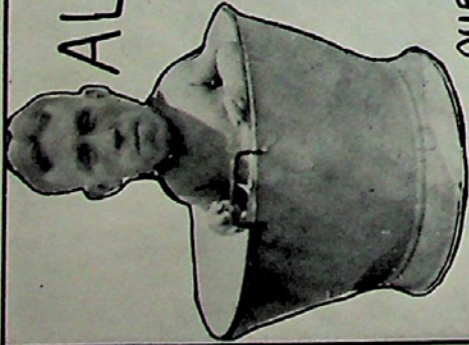

(Signed) PHILIP PHILLIPPI.

SEEING MR. GRUVER

Every time I went to the office I did not have the same sensations. Sometimes I went because I had been absent from school or because I had lost a book. The only time the office impressed me very much was when I was in trouble and had to see Mr. Gruver. The whole place was changed from a busy school office into a warden's office in a jail.

Now and then I did something in school which seemed very small and insignificant to me. This, however, was very important to the teacher for it gave that person the chance to exercise his power. I was told very politely to leave the room. These few words changed the aspect of the whole situation. No longer was I a pupil who came to this school to have a good time, but an outcast, a criminal who then had to see the judge and serve his sentence. I smiled or sometimes laughed as I left the classroom. The other pupils may have thought that I enjoyed going to the office, but they were mistaken. They could not see what was going on inside of me and how scared I was.

I seemed to be able to get to the office more quickly than usual. I was told to go into Mr. Gruver's private office. He looked up at me and said very icily, "Well!" My heart skipped a beat. I tried to tell him what I did and to make it seem nothing at all. If only someone had been there to help me! I tried to look him straight in the eye, but he never looked at me. He told me that I should go home for the afternoon. I was afraid to ask him to let me stay in school and I was afraid to go home. Since he did not ask for my books, I knew I could go back to school the next day. I believe I lost three or four pounds when I went thru this ordeal.

Now that I have graduated and can look back, I think it wasn't so bad after all.

A MISS HESS TEST

I thought that I should never pass
A test in dear Miss Hess's class.
A test whose contents made me groan,
And wish I had a brighter dome;
A test which stared at me and said
That I should wish that I were dead;
A test which made me feel so punk,
And see that I was going to flunk.
Upon whose side I wrote in vain—
No passing mark for all my pain.
Please tell me why she had this test,
In which I could not do my best.

Apologies to JOYCE KILMER.

Keeping the WOLFE Away from the COFFIN

"LUCH!" cried the GAMBLER, as he whipped the party's MONTZ into a full gallop. "Thar's GOLD in them thar hills."

"Don't make your horse gallup; WALKER or you'll PETER her out," commanded one of the MEAKER comrades.

"Whar thar's GOLD, a GAMBLER can live. We can LANDIS a good-sized PAYROW. That's worth a couple of GRANT. And that's not the WERST we can do. I AMES to get MOHR if possible," replied the GAMBLER.

They FORD(ed) a stream full of REED(s) into a GREEN field of MAIZE surrounded by THORN-bushes, where a YOUNG WREN lived.

Their plan was soon discovered when they entered the mining town. They bought a HAMM and a LOTTO other stuff. Before they could have RODDA way and escaped, the village SMITH and MILLER caught them. "Let's LYNCH them," said they. So the SMITH TYSON to a tree on the BORDA of the town.

With his last breath the GAMBLER said, "Let me take mine STANDING." Now he is DION.

Moral: Let this be a LESKIN to you.

THE CAULDRON

LEGACY TO PROSPERITY

A few weeks ago (or what used to be a few weeks ago), several people came up to me and asked, with an anxious catch in their voices, whether I was going to write anything funny for the CAULDRON. Of course I hastened to assure them all that I most certainly was, patted them on the shoulder, and told them to go home and get a good night's rest and, above all, not to worry. The looks in their haggard eyes were reward enough for my generosity (and also led me to overlook the hysterical remarks—bordering on profanity—some of them made—poor things!).

But I found that my promise, made so unthinkingly, had placed me in an awkward position (poor, impulsive, warm-hearted fool that I was!). There it was, already Doughnut Day, and I had nothing written except my Biology note-book and not a heck of a lot of that. And the CAULDRON was to be printed in June and be on the news-stands in July. That meant that I would have to work like mad to get my article done in time. I tell you it made me pretty nervous and irritable just to think of it. For weeks I went about growling and snapping at anyone who tried to pet me. At night I cried and carried on so I kept the neighbors awake. (They were really nice about it though.) "It's probably the weather," they told my mother. "And if I were you, Mrs. Maize, I would cut out feeding him meat, at least during the hot spell."

I had determined by this time, May 2nd (the birthday of Norma Talmadge, actress, 1897), that this article should be the kind that lasts, the kind my classmates would remember me by. For instance, I didn't want Ernie Thorn, ten years (or make it twenty) from now, saying to his grandchildren. "That Joe Maize, he was an old fool," and snickering. Worse yet, his grandchildren might snicker, too, and I couldn't bear that. So you see?

Anyway, here's the idea. I'm going to publish everything I've learned in four years (no more, no less) as a sort of miniature encyclopedia. The mass of material is arranged alphabetically, so you'll probably catch on to the system in no time. (Now, Ernie Thorn,—who's an old fool?)

And here we go everybody with

ALGEBRA—

- (1) The square root of 2 = 1.441.
- (2) Always let x equal the unknown (Oh, go on, let it! Just this once?)
- (3) The square root of 2 = 1.144.
- (4) Silly, isn't it? All math is.

BIOLOGY—

- (1) Any mention of bugs or blood makes us creepy. Let's not talk about it—huh?

COOKING—Quit kidding.

DRAWING— " "

ECONOMICS—Look under History.

FRENCH—Go buy une bonne livre de French.

(Go buy a good French book.)

GEOMETRY—Don't ask me! Who do I look like, anyhow? *M-----?

HISTORY—Whatever the question is you can find the answer in any ordinary encyclopedia.

MUSIC—Let it go.

NAZARETH—Take the macadam road to the left and keep on going.

OSTEOPATHY—Personally, I'm satisfied to let the whole thing drop right here and now.

How about you?

JOSEPH MAIZE.

*EDITOR'S NOTE: You have nice eyes, though.

Chemical Constituents of Some Elective Subjects

NOTES: These are the elements written out in full. Look up *Chemistry* in the encyclopedia, find the symbols for the elements, and write them in the order of the elements.

1. Aluminum + Germanium + Boron + Radium yields?
2. Phosphorus + Hydrogen + Iodine + Sulphur + Iodine + Carbon + Sulphur yields?
3. Boron + Uranium + Sulphur + Iodine + Neon + Sulphur₂ + Lanthanium + Tungsten yields?
4. Lanthanium + Titanium + Nitrogen yields?
5. Carbon + Iodine + Vanadium + Iodine + Carbon + Sulphur yields?

Definitions of Certain Types of Mankind in Liberty High

Evolution of a High School Graduate

Sophomore—wise guy from some junior high; *Junior*—silly, happy-go-lucky, don't-give-a-darn kid; *Senior*—serious minded, philosophic youth, man of letters; *Graduate*—man of the world with 80 credits; *P.G.*—one who can't bear to miss the wild life and hilarity of L.H.S. (They always come back for more.)

Sophomore: Was there a crowd at the Prom?

Junior: Was there? There was such a big crowd that Miriam Walker fainted and had to dance four dances before she was able to sit down.

Of sunset passes down the West,
I hear the whispering host returning;
On far-off fields, by elm and oak,
I see the lights, I smell the smoke,—
The Camp-fires of the Past are burning.”*
