(rain date: September 20, 6p)

Tickets are FREE, donations are welcome.

## **donations**

*Performance takes place OUTSIDE, behind Touchstone. Masks and social distancing are required for all attendees.*

---

At last year's Sustainability Forum, high schoolers from across Bethlehem came together to share projects that would create a more sustainable community for all of us. This year, in partnership with Liberty High School, our students continue to reflect on the massive changes in our world, taking those big plans □ focusing on the environment, housing, energy, clean water □ developing them, and sharing them with the community.
