Gadfly:

We need volunteers to help the Bethlehem city Forester with planting tree saplings in Saucon Park!

We have about 600 to plant!!

I know this is short notice, but he was only notified of their arrival today.

They are PPL GRANT Saplings, so they didn't cost the city anything, but we do need help with plantings!

What a timely event coordinated with our city's CAP!

Please assist on Saturday May 8th at Saucon Park. Meet at the parking lot off Fire lane for 9am.

I have included a picture of the lot and where we will be planting.

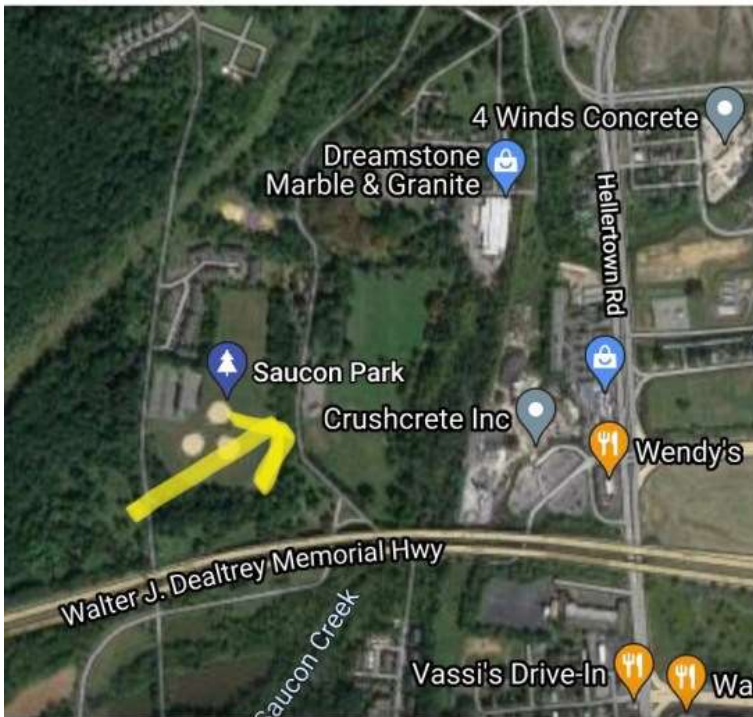

Please wear sturdy footwear and bring a shovel!

Please help get the word out!

We'll need every hand and shovel we can get!

Thanks everyone!!

Brian Nicas
