

Breiner, Edward
" , Harry

**Pfc. Edward Breiner
At Valley Forge Hospital**

FEB 8 1944
After being overseas 14 months, during which time he saw action in Mediterranean warfare and was wounded in an arm and leg, Private First Class Edward Breiner, son of Mr. and Mrs. Edward Breiner, of this city, has returned and is a patient at Valley Forge General Hospital.

Pfc. Breiner was inducted in July, 1942, and was sent overseas without receiving a furlough. He was visited during the weekend by his parents and sister, Emma, and family. He is said to be recovering nicely from his wounds and is the only patient there from this city.

Pfc. Breiner has a brother, Harry, with the Army in Florida.
