

Matz, Wilbur K.

**Pvt. Wilbur K. Matz
Completes Course**

JAN 6 1945

A graduate of the only school of its kind in the Army is Pvt. Wilbur K. Matz, 1515 Chelsea Avenue. Pvt. Matz has successfully completed his six weeks course at the ferrying division's advanced radio training unit (Reno, Nev. Army Air Base) where he learned to operate the radio on

the C-46, largest two engined cargo plane in the world.

Since the C-46 is world-widely used by the Air Transport Command, Pvt. Matz's future assignments will probably include radio operation on missions in which the huge transport carries vitally needed supplies to air bases all over the world.
