## Dana Grubb for Mayor

[\*click here for video\*](#)

Candidate Grubb at New St. and the Greenway:

- symbolic epicenter for preservation v. development issues
- can find the poster children here for out-of-scale development
- make no mistake, we need development to grow our tax base
- current developers and city leaders need to respect the vision of past leaders in establishing the historic district
- canyon-like feel of massive structures has negatively impacted spirit of this multi-cultural arts district
- no campaign donations from Bethlehem major developers so development proposals stand on their own merit
- no payback for donations
- able to judge projects objectively

*Let's believe in a better Bethlehem.*
