

Moyer, William J.

Gets Wings

11 1944

Aerial Gunner William J. Moyer pleasantly surprised his family on Wednesday when he arrived home unexpectedly from Florida. Moyer was recently graduated from aerial gunnery school at the Buckingham Army Air Field, Fort Myers, Florida. He completed his basic training at Miami Beach, Florida, and spent the next three months at Presbyterian College, Clinton, S. C., where he received advanced training. On June 28, he received his gunner's wings, which qualify him for duty on a B-29 Fortress. He is in the service eight months. He will spend the next two weeks with relatives and friends around town.

Aerial Gunner Moyer is married to the former Edith Marsh, daughter of Mr. and Mrs. Alvin Marsh, 1264 Newport Ave. They are the parents of a five-months old daughter, Judith Ann, who saw her daddy for the first time. Mrs. Moyer and her daughter, Judith, reside at 2150 Northampton Ave.

He is the son of Mr. and Mrs. William N. Moyer, 921 Washington Avenue, and is a graduate of the Northampton High school class of 1938. He will return to the same base in Florida upon completion of his furlough.
