

Peter punches! Pow!

The Bethlehem Gadfly Climate Action Plan, Environment, Environmental Advisory Council, Serious Issues October 1, 2019

(The latest in a series of posts relating to the environment, Bethlehem's Climate Action Plan, and Bethlehem's Environmental Advisory Council)

Gadfly and Kate:

[Might be a good stress reliever.](#)

Just a reminder that spreading to new areas is common for most species; in the era of global warming, that will increase as temperatures exceed the range in which they can survive.

There is, of course, no contest for what is probably the most invasive species of all time — humans.
